

The Center for Career Guidance & Development arranged for the Industry Visit at the Amul Bansa Plant , Lucknow on March 13th 2019.

A team of around 50 students of Final Year MBA along with 4 CCG&D and faculty members were part of the trip.

The main objective for the visit was take the students close to the industry. With the aim to provide our students an exposure and get acquainted about the functioning of a manufacturing and processing plant. This visit was successful as the students got an overview and insights into the various aspects of the manufacturing processes , right from the collection of the material product processing , packaging, storage ,transportation and the final distribution of the Amul Products.
