**NOTICE**

**(Training Program)**

The Department of Civil Engineering is organizing a training program on Building Information Modelling (BIM) in collaboration with TechPMC for the students of the Department of Civil Engineering. BIM with Project Management Program covers the entire Building information Modelling modules which cater to the theme of Plan, Design, Build & Operation of a Building. The course is designed as 10 modules and assessments. The course offers 160 hours of project-oriented training.

After completing the course requirements, the student will obtain a thorough idea about Building Information Modelling workflow and Process. The course will prepare them to achieve the required skill sets of BIM modelers and that can lead to higher profiles like BIM coordinators & BIM managers in the future.

The course is open to all the students of the Department of Civil Engineering and Department of Architecture. Kindly contact the course coordinator for further details.
