**Department of Electrical Engineering**

The **Electrical Engineering Department** is pleased to announce a successful **Digital Literacy Awareness Program** organized in collaboration with **Indusland Bank**, Paikramau, on **18th October 2024**. This event was conducted under the Digital Saksharta initiative, aiming to promote digital literacy among students and local communities. The program featured an interactive session with **Ms. Meenal Mishra, Deputy Branch Manager of Indusland Bank**, Paikramau who educated the students on various aspects of digital literacy. She emphasized the importance of being aware of cybercrimes and the risks associated with online platforms, providing valuable insights into staying safe in the digital world.

Following the session, the students visited the adopted village Paikramau, where they engaged with the local community, raising awareness about digital fraud and how to protect themselves from such scams. This hands-on experience allowed students to apply their newly acquired knowledge and contribute to the village's digital safety. The initiative was coordinated by **Dr. Mohammed Asim** and **Mr. Abdul Waheed**, Electrical Engineering Department who ensured smooth communication and facilitated productive interactions between the students, faculty, and villagers, marking the program as a significant step toward fostering a digitally aware society.

**Dr. Mohammed Atif Siddiqui**, **Head, Electrical Engineering Department** supervised the whole event and appreciated the efforts and also acknowledged Indusland Bank for their support.

With regards

Dr. Mohammad Atif Siddiqui
