Dear All,

The **Department of Electrical Engineering** on 8th October 2024, in collaboration with **Integral University Social Service (IUSS), 94.3 BIG FM, and Swapna Foundation**, organized an Awareness Rally on Climate Degradation as part of the DAAN UTSAV (Joy of Giving Week) celebrations. The rally aimed to raise awareness about the harmful effects of climate degradation and the urgent need for environmental conservation. The event began at 11:00 AM, with students and staff of Integral University assembling at University Gate-1. **Faculty coordinators Dr. Mohammed Asim and Ms. Ambreen Siddiqui, along with student coordinators Md Zahid Khan and Syed Mohd Ali Rizvi, led the participants through the rally.** The route took the participants from University Gate-1 through the university sports ground, past University Gate-3, and concluded at University Gate-2. Along the way, the participants carried banners and placards, distributed pamphlets, and engaged with bystanders, spreading important messages about climate change, sustainable living, and environmental protection.

The rally was well-received by the university community and passersby alike, generating awareness on the importance of individual and collective action in combating climate degradation. The collaboration between the Department of Electrical Engineering, IUSS, BIG FM, and Swapna Foundation, coupled with the active involvement of students and staff, ensured the rally had a wide-reaching impact. The event not only spread the message of climate conservation but also emphasized the role each individual can play in reducing carbon footprints and adopting eco-friendly practices. This rally served as an important reminder of the responsibility we all share in protecting our planet and was a fitting contribution to the DAAN UTSAV celebrations, aligning with the spirit of giving back to the environment.

Dr. Mohd Atif Siddiqui, Head Electrical Engineering Department, Integral University appreciated the efforts put in by the students and staff for the awareness rally and also acknowledged the collaboration and support of Integral University Social Service (IUSS), 94.3 BIG FM, and Swapna Foundation for the successful conduction of the program.

With regards

Dr. Mohammad Atif Siddiqui
Head, Department of Electrical Engineering
Integral University, Lucknow
