About the University :

Integral University is a premier university situated in Lucknow, the capital city of the largest state of India, Uttar Pradesh. It was established under Act Number 9 of 2004 by the State Government. The University is duly approved by the University Grants Commission (UGC) under sections 2(f) and 12B of the UGC Act, 1956 and all relevant statutory bodies. In the recent past, the University has been a recipient of several prestigious awards in the education sector. The university has been accredited A+ by the National Assessment and Accreditation Council (NAAC). The University offers diploma, undergraduate, postgraduate and doctoral programs in all prominent fields like Pharmacy, Engineering, Sciences, Health & Medical Sciences, Commerce & Management, Computer Applications, Agriculture, Law, Architecture & Planning, Education, Library & Information Science and Humanities & Social Sciences. The University offers more than 240 programs across 47 disciplines, and currently hosts around 11000 students at its 120-acre campus. In a lush green, safe, serene and ragging-free environment, the campus provides state-of-the-art hostel accommodation, with the capacity to host 2600 students in the hostels and houses a 550-bedded hospital, as part of the Medical College, with state-of-the-art medical facilities, and more than 200 doctors. The grand Central Library of the University holds more than 100,000 books and several hundreds of journals and magazines. The University currently hosts students from more than 20 countries. Integral University has hosted several diplomats and dignitaries from African and Asian countries and enjoys the trust and support of the embassies on account of its quality education and infrastructure. The guidance and support that the University provides to its students in general and international students in particular, have brought accolades from the diplomatic community and student associations around the world.

About the Department :

The Faculty of Pharmacy offers education for Diploma, Bachelors and Masters Program in Pharmacy apart from a six year degree program leading to Doctor of Pharmacy. Our experienced faculty also guides research scholars pursuing Ph.D. degree in different disciplines of Pharmaceutical Sciences. Novel approaches to treatment of diseases and new medications in the market over the past decade have contributed in a big way in the rapidly growing health care sector. The pharmaceutical industry in India is expected to be worth \$130 billion by the year 2030 and a qualified pharmacist finds innumerable job opportunities that no other discipline may offer. As reflected in the University Mission, we are driven by the belief that every student deserves high quality education. The Faculty is part of a comprehensive health sciences campus dedicated to health education, research and patient care. The faculty members care deeply about teaching & mentoring our students employing both traditional and modern methods of teaching and are supported through excellent infrastructure. The highly qualified and experienced staff is committed to impart the knowledge and skills in diverse fields like drug design, drug development, natural product research and pharmacy practice to prepare future health care leaders

About the Conference :

Pharmaceutical sciences have been evolving rapidly in recent years. The focus has shifted from traditional drug discovery and development to more innovative approaches that are aimed at improving patient outcomes. The goal of the conference is to bring together academicians and researchers from all areas of pharmaceutical sciences and other related fields and to provide a potential platform for exchanging and updating knowledge in pharmaceutical and health sciences research and innovation. It will include exciting scientific programs that will cover all aspects of pharmaceutical sciences from basics to their applications. The conference will also give attendees a clear knowledge of the problems by advance pharmaceuticals, as well as potential solutions. It will be an excellent forum for students, postdoctoral fellows, established scientists, faculties, and industry delegates from India and abroad, to exchange ideas and expand their knowledge. It will be an excellent occasion to meet researchers from India and across the globe and will provide a platform to widen professional contact and create new opportunities, including establishing new collaborations. This strategic conference will provide in-depth presentations and interactive sessions, for the possibility to network with like-minded professionals and discuss how to overcome the current challenges in pharmaceutical sciences. The conference shall have oral and poster presentation sessions from the academic, industry delegates and researchers.

Sub-themes of the Conference:

- Nanocarrier mediated targeted drug delivery
- Newer screening tools and alternatives to animal models
- Drug safety and sustainable health
- Drug designing for newer targets
