

Workshop on Revit Architecture & Stadd Pro Conducted by Ducat India

The workshop was conducted by CCGND (Center for Career Guidance & Development), Integral University at Central Auditorium. The workshop was conducted by the prestigious training institute of Ducatit India. The institute is situated in Noida and provides the best available programs which helps in enhancing the technical skills through software development workshops.

The training was given on the the relatively new software of Revit and Stadd Pro. Students participated in the workshop with great enthusiasm and students received hands on training on these software. The session ended with distribution of certificates to the students and vote of thanks to the convenor.
