

## GUEST LECTURE ORGANISED BY FACULTY OF PHARMACY

The Faculty of Pharmacy organised an expert talk on **Post Covid complications and Vaccination** on 10<sup>th</sup> June, 2021 via Online Mode, in order to highlight the importance of COVID complications in today's era and its related preventive measures especially vaccination. The students/attendees participated in the talk with great zeal and enthusiasm.

The invited eminent speaker, Dr. Kanav Khera, Assistant Professor, Department of Pharmacy Practice, Manipal College of Pharmaceutical sciences (MCOPS), Manipal, enlightened the students with his commendable talk on the subject. The student participants appreciated and applauded the valuable knowledge shared by the expert during the talk. One important aspect of vaccination, which he covered in his talk, was the temporary side effects viz. headache, fatigue and fever, are signs indicating that the immune system is reviving up a normal response to vaccines. Besides, he also informed that a person who had been affected by COVID-19, also, needs to get vaccinated against the disease. Further, He added that the immune response after having the disease isn't as strong as the defensive response which occurs after vaccination.

The program was concluded successfully by vote of thanks.
