Report on Guest Lecture on “Data Science for Beginners”

The Department of Computer Application, Integral University, organized a Guest Lecture on “**Data Science for beginners**” on 17th November 2021, at 11:30 am. 73 students from the Department attended the Guest Lecture. The main focus of this Guest Lecture was to create an awareness on the ‘Data Science Analytics’ domain, which is popular in all academia, business sectors, and research and development, to make effective decisions in day to day activities. Resource Speaker, Mr. Mirza Ghazanfar Beg, Senior Software Engineer, Innovitt Global, began the lecture by explaining the existence of Data Science concepts in various fields. He elaborated an example usage of data science and explained the data science-oriented algorithms through various case studies, which not only helped the students understand the concepts with ease, but also provided an insight on the real-time applications in the aforementioned domain. There was an interactive Question and Answer session following the presentation, and the program came to an end with the proposal of Vote of Thanks by Mr. Wasim Khan, Event Coordinator. The lecture was highly appreciated by the participating students and the academicians & management of the department as well.
