

Integral University, Lucknow

Seminar on

“Digital Privacy & Security”

(25 February 2020)

Organized by

Department of Computer Application

in association with

“EUINAC Technologies, Lucknow”

Brief Report

Innovative Teaching & Learning Committee, Department of Application has organized a one day Seminar on Digital Privacy & Security on 25th February, 2020 in association of EUINAC Technologies, Lucknow. The main objective of Seminar to explore the threat and awareness about the digital security to the students. As we know that digital security is essential for trust in the digital age. In the digital environment we are all interdependent, and only as strong as the weakest link. Mr. Anshul Pandey, CEO of EUINAC has also given the practical demonstration on security vulnerability of Mobile phones and shows how a cybercriminal can get into any mobile phone and can access, temper and misuse the personal information. Approx. 77 students from BCA and MCA have been attended the seminar and learned the practical aspect of digital privacy and security to secure their electronic devices.
