Webinar

on

“Cyber Security Awareness and current trends for defence”

Wednesday, June 01, 2022

As per the directives of Uttar Pradesh Higher Education Department, every First Wednesday of month is observed as "Cyber Awareness Day" with a view to educate students to increase cyber resilience of the nation as recommended by the National Security Council Secretariat (NSCS), Government of India, an initiative to put conscious efforts towards ensuring better cyber security hygiene and incorporating better security measures. It was initially launched by the National Cyber Security Alliance & U.S. Department of Homeland Security in October 2004 in order to bring attention to Cyber Security and as a concentrated effort to stay safe and secure online. It is an initiative to put conscious efforts towards ensuring better cyber security hygiene and incorporate stronger security measures. In continuation of the initiative of Uttar Pradesh Higher Education Department, the **Department of Computer Application** Integral University, Lucknow has observed 01 June, 2022 (Wednesday) as the seventh “**Cyber Awareness Day**”.

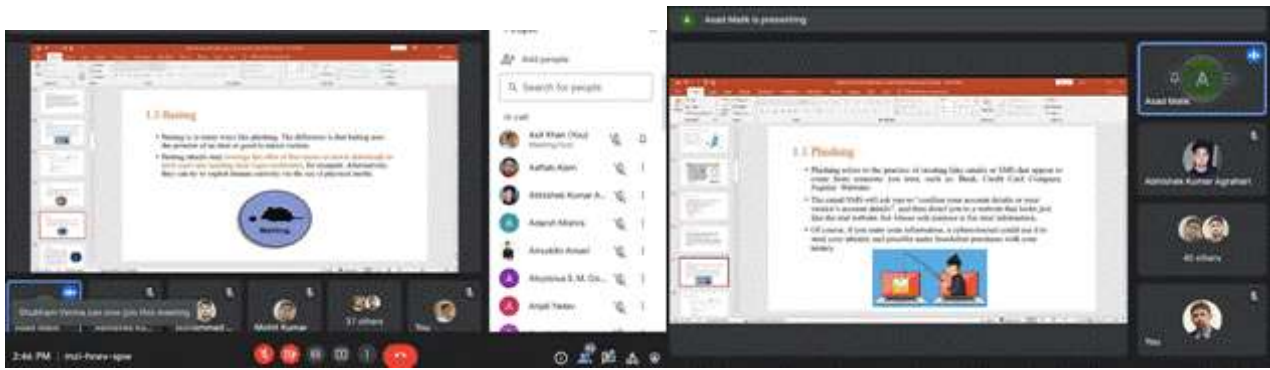

The Department of Computer Application has organized a webinar on the topic “**Cyber Security Awareness and current trends for defence**” on Wednesday 01 June, 2022 between 2:00PM-4:00PM in virtual mode under the flagship of the Cyber Awareness Day Programme. **Dr Asad Malik**, Assistant Professor, Department of Computer Science, Aligarh Muslim University (AMU), Aligarh, India was the resource person at the occasion and he focused on:

- Cyber security awareness occurs as a result of human interactions.
- Current trends of defense against cybercrime are what make social life so dangerous.

The webinar was conducted in online mode using the Google Meet Platform, in which students, research scholars, faculty members, and supporting staff members participated.

The webinar had a huge response, with 107 registration from students, faculty, and other staff from different colleges and universities. **Dr. Mohd Muqem**, Associate Professor **and Dr. Asif Khan**, Assistant Professors in the department of computer application coordinated the event successfully.
