Subject: Approval Request for World Tuberculosis Day Awareness Programme – 22nd March 2024

Respected Sir,

I am writing to seek your approval for an upcoming event that holds significant importance in our local community. On March 22, 2024, the College of Nursing, in collaboration with the National Service Scheme (NSS), plans to organize an event commemorating **World Tuberculosis (TB) Day**. The event aims to raise awareness about tuberculosis prevention, detection, and treatment within our community. It will feature various activities **organized by the B.Sc Nursing 3rd Year students**, under the supervision of faculty members.

Here is a brief overview of the agenda:

- Awareness Rally led by B.Sc Nursing 2nd Year 4th Semester Students
- Skit on "Defeating TB Together" by B.Sc Nursing 2nd Year 4th Semester Students
- Interactive Debate on TB Myths vs Facts facilitated by B.Sc Nursing 2nd Year 4th Semester Students
- Testimonials: Survivors' Stories shared by B.Sc Nursing 2nd Year 4th Semester Students
- Demonstration of TB Screening Methods conducted by B.Sc Nursing 2nd Year 4th Semester Students
- Importance of Hygiene and Nutrition presentation by B.Sc Nursing 2nd Year 4th Semester Students
- Q & A Session with a Panel of Experts comprising faculty and students
- Distribution of Informational Materials by the Outreach Team
- Closing Remarks and Thanks by the Program Coordinators

Your approval for this programme is crucial for its successful execution. We assure you of our utmost dedication and commitment to making this event a success.

Thank you for considering our request. We look forward to your favorable response.

NOTICE

We are excited to inform you about an upcoming event aimed at raising awareness about **World Tuberculosis (TB) Day** in our local community. The **College of Nursing is collaborating with the National Service Scheme (NSS)** to organize this event, which will take place on 22-03-2024.

To ensure the success of this initiative, we are convening a faculty meeting to discuss the details and coordinate our efforts effectively. The meeting is scheduled for 12-03-2024 at 10.45 AM in the Head of Department's (HOD) office.

Agenda:

- Overview of World Tuberculosis Day
- Discussion on event objectives and activities
- Coordination of faculty roles and responsibilities
- Engagement of B.Sc. Nursing 2nd year 4th -semester students
- Selection of the community area for the event

Your active participation and valuable inputs are crucial for the smooth execution of this program. Let's work together to make a meaningful impact in raising awareness about tuberculosis in our community.

REPORT ON

WORLD TUBERCULOSIS DAY AWARENESS PROGRAMME

THEME: "Yes! We can end TB,"

Organized by 'Department of Nursing' on 22nd March-2024

The department of Nursing had celebrated a 'World Tuberculosis Day Awareness Programme on 22nd March, 2024. This Program has been conducted under the guidance of Prof.(Dr). Ashfaq Khan Director, IIAHSR, Dr. Prof. Annie Chandra (Dean, IINSR) & Mr. Farzand Ali (Principal, IINSR)

The Program Coordinators:

Mr. Parameshwar, Assistant Professor

Ms. Saba Intizar Khan, Tutor

About the Theme

World Tuberculosis (TB) Day, March 24, 2024, is anchored in the theme "Yes! We can end TB," underscoring the ongoing threat posed by TB, one of the deadliest diseases worldwide, and the concerning rise of drug-resistant strains in recent years.

This annual observance serves as a vital platform to reaffirm dedication, ignite inspiration, and drive tangible action towards eradicating TB. Following the pivotal United Nations High-level Meeting on TB in September 2023, WHO/Europe advocates for:

- Increased investment
- Adoption of the latest WHO recommendations
- Embracing innovative approaches
- Active engagement of civil society organizations.

History and Significance of World Tuberculosis (TB) Day

March 24, 1882, marks a pivotal moment in the fight against tuberculosis, as Dr. Robert Koch discovered the bacteria responsible for the disease on this day. This breakthrough paved the way for enhanced understanding, diagnosis, and treatment of TB. Recognizing the significance of this date, the International Union Against Tuberculosis and Lung Disease (IUATLD) proposed observing March 24 as World TB Day in 1982, coinciding with the centenary of Dr. Koch's discovery. The inaugural World TB Day took place in 1983, establishing an annual event dedicated to raising awareness about TB and its global impact.

World TB Day serves as a poignant annual reminder to prioritize research, investment, and action towards developing effective treatment strategies, prevention methods, and increasing awareness surrounding tuberculosis. According to the World Health Organization (WHO), approximately a quarter of the world's population is estimated to have been infected with TB bacteria, with 5-10% of those individuals eventually developing TB disease. Treatment for TB typically involves antibiotics and can be life-threatening without proper intervention. Emphasizing the importance of good hygiene practices such as cough etiquette, avoiding close contact with others, and wearing masks to cover the mouth and nose when
