Notice

**Guest Lecture on "Gender Equity and Equality"
organized by
Department of Environmental Science**

Dear Faculty members, scholars and Students,

It gives immense pleasure to inform you that the Department of Environmental Science is organizing a guest lecture on "Gender Equity and Equality" on 17th May 2024 at 11:00 am onwards in online mode.

The aim of the lecture will educate students and teachers about the gender equality which is intrinsically linked to sustainable development and is vital to the realization of human rights for all. The overall objective of gender equality is to have a society in which women and men relish the same opportunities, rights and obligations in all spheres of life.

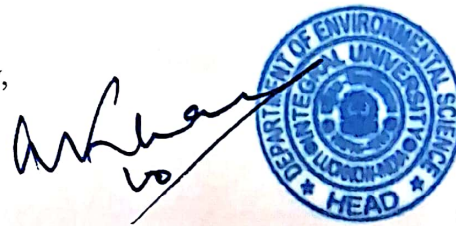

We invite all the faculty members, students and all the research scholars to attend the guest lecture to make it a success.

Report on Guest Lecture organized in the Department of Environmental Science

on

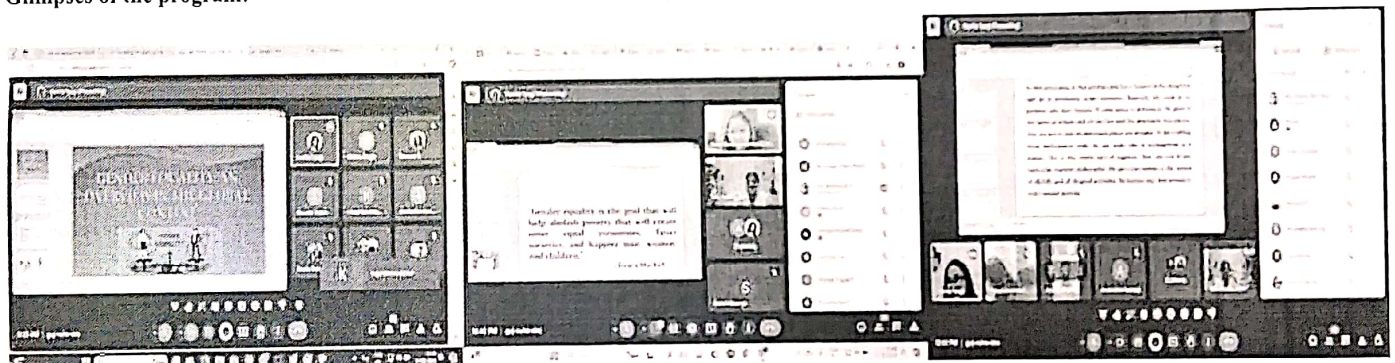

"Gender Equity and Equality"

The Department of Environmental Science, Integral University commemorated an enlightening guest lecture on 17th May, 2024 titled "Gender Equity and Equality" through online mode. The aim of gender equality is to achieve a world where all individuals, regardless of their gender, have equal opportunities and rights.

Dr. Kavita Tyagi, Head, Department of English, Dr. Shakuntala Mishra Rehabilitation National University, Lucknow, graced the occasion as the distinguished guest speaker, delivered valuable insights by giving numerous examples of biasness against feminine gender. She said that in India, discriminatory attitudes towards males or females have existed for generations and affect both lives. Although the Indian constitution has granted both men and women equal rights, gender disparities continue to live and rule. Indian society has always been the hub of this discrimination, making women its victim. In the land where women are Goddess's, the same Nation leaves a blot of atrocities and inequality. Discrimination between men and women affects many aspects of women's lives, from career development and progress to mental health disorders.

Around 30 students and all the faculty members attended the interactive session which allowed attendees to engage in meaningful discussions on a spectrum of topics. Dr. Tyagi's eloquently elucidated the challenges faced by the female gender in the society. Her lecture was very informative and inspiring, leaving a lasting impression on the audience. The Programme was observed under the guidance of Dr. Ambrina sardar Khan, Head, Department of Environmental Science. Dr. Amina Jafri moderated the session as faculty coordinator.

Glimpses of the program:
