Brief Report
on
One Day Guest Lecture on
Naturalistic Philosophy : Sustaining Earth in the Modern Era
On
23rd April'2024
Organized by
Faculty of Education

The Faculty of Education at Integral University, Lucknow, proudly hosted one day guest lecture on "Naturalistic Philosophy : Sustaining Earth in the Modern Era " on the occasion of World Earth Day (22nd April, 2024). The event was organized on Tuesday, April 23rd, 2024, from 1:30 p.m. at , Integral University. The lecture was delivered by Dr. Bushra Sumaiya, Assistant Professor at Department of Education, 4th floor, Room no. W403, Phase II , Academic Block W, Integral University, Lucknow. The program was designed by of the activity incharge Dr. Manisha Singh and well executed by event coordinator Dr. Noorain Anas, Assistant Professors, Faculty of Education.

With regard to the deteriorating condition of the earth and the necessity to educate the youth about it inspired the faculty of education to invite students to a guest lecture on the topic *Naturalistic Philosophy: Sustaining Earth in the Modern Era*. The programme was started with the introduction of the topic by Dr. Manisha Singh and welcome of the resource person Dr. Bushra Sumaiya, Assistant Professor, Faculty of Education with a sapling.

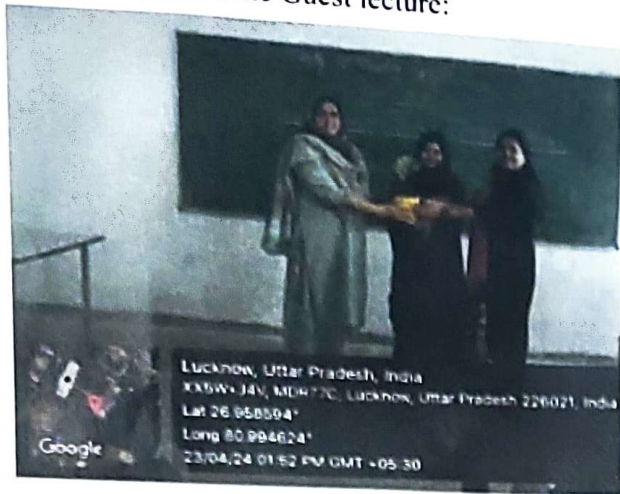

Dr. Bushra started her lecture with an interactive session where the students put forth their understanding on philosophy of naturalism as that is the connecting bridge to understanding the need to sustain the earth in the modern era.

The highlights of the lecture were:

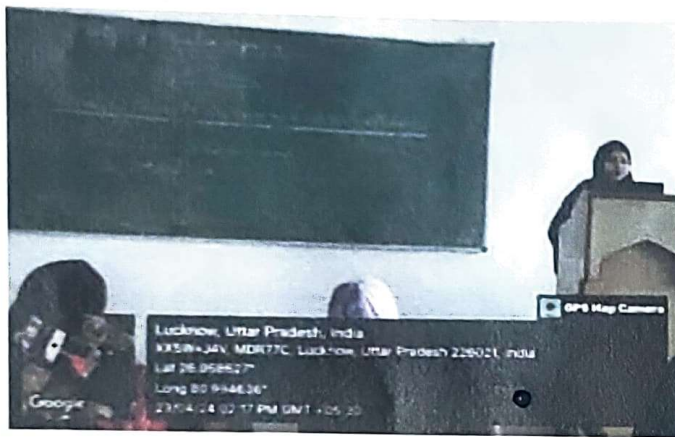

- Focus on Naturalistic Philosophy motto: "Back to Nature" and fundamental tenets of Naturalistic Philosophy viz. Respect for Nature, Sustainable Resource Use and Preservation of Biodiversity.
- Promotion of Harmony with Nature, Advocated for Ethical Responsibility and promoting ethical considerations in Naturalistic Philosophy viz. Recognition of all beings, Sustainable Resource Use and Preservation of Biodiversity.
- Environmental Challenges: Impact of Climate change, Consequence of Pollution and Loss of Biodiversity.
- Solutions from Naturalistic Philosophy are Embracing Sustainable Living Practice, Conservation Efforts and Advocating for Environmental Policies.
- Ways to Empowerment through Education and Awareness such as Promoting Naturalistic Philosophy, Empowerment through Education and Raising Environment Awareness.

The lecture conclude on a very insight full note as she emphasized the harmonious coexistence of all living beings which should be initiated from our side and take measures to conserve and preserve our ecosystem. By the end of the session Tuba Aleem , student of Department of Education conveyed vote of thanks and the session ended with a commemorative photograph.
