**ABOUT THE WORKSHOP**

Microteaching, a teacher training technique currently practiced worldwide, provides teachers an opportunity to polish up their teaching skills by improving the various simple tasks called teaching skills. With the progress across among the service and senior, microteaching helps to promote real-time teaching experience. Today the profession of teaching has become quite challenging. Teachers are expected to be both effective teachers and researchers. Being an educator is not just about sharing knowledge; it is about making sure that learners truly integrate this knowledge and derive learning out of it. After teaching that does not result in effective learning in students. Therefore, to be an effective teacher, one needs to be able to develop expertise in Micro Teaching Skills and continuously upgrade himself/herself by engaging in research. After Workshop every teacher will be able to: Familiarize prospective teachers about the importance of micro teaching in innovation. Analyze the different components of micro teaching skills and its applications. Gain self-confidence among prospective teachers by scaling down all complexities of actual classroom situation. Practice micro teaching to develop core teaching skills for effective classroom teaching. Make use of the academic potential of the teacher trainee by providing much needed feedback. Acquire the ability to integrate the micro teaching skills in normal classroom teaching. The program also caters to the United Nations Sustainable Development Goals (SDG) 4 and 9.

**ELIGIBILITY:** Students from Faculty of Education can apply for the workshop. However, PG students of other departments, Research Scholars, Faculty Members and School Teachers with an audition to explore their teaching areas of Teaching-Learning. Trainees are also welcome.

**CERTIFICATE:** It is mandatory to attend all the sessions and complete required assignments to get hard copy of the Certificate.
