on
One Day Workshop on
"Ethical Hacking Tools And Techniques"
in collaboration with
EC-Council
Organized by
Cyber Awareness Club,
Department of Computer Application**

Event Overview:-

The Department of Computer Application organized a one-day workshop on Ethical Hacking Tools and Techniques in collaboration with **EC-Council**. The workshop aimed to provide participants with insights into the latest tools and methodologies used in ethical hacking, enhancing their understanding of cybersecurity concepts. The workshop garnered significant interest, attracting over 200 registrations from students, professionals, and enthusiasts eager to delve into the realm of ethical hacking. Participants hailed from diverse academic backgrounds, including computer science, information technology, and cybersecurity.

E-Commerce Consultants (EC-Council) is a global leader in cybersecurity certification programs and training. It was established in 2001 to address the growing need for cybersecurity education and certification in response to the increasing cyber threats faced by organizations and individuals.

Key Highlights:-

- Engaging and interactive training sessions led by Mr. Mathew, incorporating real-world examples and practical use cases to enhance participants' understanding.
- Hands-on exercises and labs were designed and facilitated by Mr. Mathew to reinforce learning and enable participants to practice implementing security measures within Cyber Security.
- Participants delved into the methodologies employed during penetration testing, including reconnaissance, scanning, exploitation, and post-exploitation.

The certificates and prizes for the winners of Byte Battle Escape {CTF} organized in October 2023 have been successfully distributed. Congratulations to all the winners for their exceptional performance and dedication during the competition.
