Collaborative efforts will focus on amplifying stakeholder voices to initiate impactful changes across healthcare, including accelerating the development of new PCOS-specific treatments and empowering all stakeholders to co-create healthcare solutions with patients.

#### Significance of PCOD:

**PCOS** is a serious genetic, hormone, metabolic and reproductive disorder that affects women and girls. It is the leading cause of female infertility and a precursor for other serious conditions including obesity, type 2 diabetes, cardiovascular disease and endometrial cancer.

PCOS Awareness Month is a federally designated event. The aim of PCOS Awareness Month is to help improve the lives of those affected by PCOS and to help them to overcome their symptoms as well as prevent and reduce their risks for life-threatening related diseases such as diabetes, cardiovascular disease, non-alcoholic fatty liver disease and cancer.
