### REPORT ON Guest Lecture

#### "World Alzheimer's Day"

THEME: Know Dementia, Know Alzheimer's"

Organized by 'Faculty of Nursing' on 1<sup>st</sup> October 2024.

The department of Nursing had organized a "World Alzheimer's Day" on 1<sup>st</sup> October 2024. This Program has been conducted under the guidance of **Dr. Prof. Ashfaque Khan** Director, IIAHSR, **Dr. Prof. Annie Chandra** (Dean, IINSR) & **Dr. Farzand Ali** (Principal, IINSR)

The Program Coordinators:

Dr. Prof. Annie Chandra  
Dr. Farzand Ali  
Mrs. Roli Srivastava  
Mrs. Shafikan  
Ms. Shreya Sinha  
Ms. Shalini  
Ms. Achsah Babu  
Mrs. Sandhya Pandey  
Ms. Madhupriya

#### About the Theme

World Alzheimer's Day is observed to raise awareness about Alzheimer's disease (AD). The theme of World Alzheimer's Day 2024 is Know Dementia, Know Alzheimer's.

This year's theme is the same as 2024, but it focuses especially on post-diagnosis support.

Alzheimer's disease (AD) is responsible for 60-70% of dementia cases, and the numbers are expected to grow in the coming decades. Neurodegenerative diseases usually begin slowly and worsen over time. Unfortunately, Alzheimer's disease cannot be reversed; however, with increased awareness, patients' families can learn to manage the condition.

#### **Significance of World Alzheimer's Day:**

The day holds great significance as it:

##### **1. Raises awareness**

Alzheimer's and other forms of dementia often go unrecognised or misunderstood. This day provides an opportunity to inform the public, dispel myths, and correct misconceptions about the disease.

##### **2. Supports advocacy**

World Alzheimer's Day strengthens advocacy efforts for better policies, funding for research, and improved care options for those affected by Alzheimer's.

#### Encourages early diagnosis

Promoting awareness, it emphasises the importance of early detection and intervention, which can lead to better management of symptoms and improve the quality of life for patients.

#### 4. Reduces stigma

People living with Alzheimer's or dementia often face stigma and discrimination. World Alzheimer's Day aims to combat these negative perceptions and promote empathy and understanding.

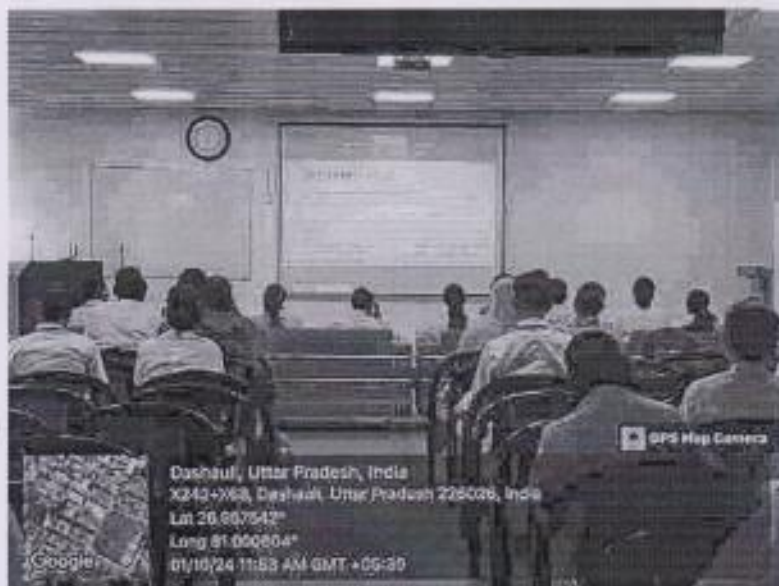

#### Guest Lecture on World Alzheimer's Day:

- The lecture was taken by our Guest Speaker Dr. Sheeja S. Principal, Bethlahem College of Nursing Karungal Kanyakumari district, Tamil Nadu on 1<sup>st</sup> October 2024 in-online mode. She told the students regarding Alzheimer's Diseases. About 1 in 9 people aged 65 and older (10.7%) have Alzheimer's.
- More than 3 million Indians are estimated to have dementia, which is set to rise to 6 million by 2050.
- Almost two-thirds of Americans with Alzheimer's are women.
- Older Black Americans are about twice as likely to have Alzheimer's or other dementias.

Alzheimer's disease is the most common type of dementia. It is a progressive disease beginning with mild memory loss and possibly leading to loss of the ability to carry on a conversation and respond to the environment. Alzheimer's disease involves parts of the brain that control thought, memory, and language...

The students of BSc. Nursing 3<sup>rd</sup> year, Post BSc 2<sup>nd</sup> year and MSc Nursing 1<sup>st</sup> year has attended the guest lecture.
