**Report
on Expert Talk****“Navigating Through Career Challenges in the Current Market Scenario”**

Dear All,

The Department Placement Committee, Department of Computer Application, Integral University, under the aegis of DQAC and in association with **Expertrons**, successfully organized an Expert Talk session on **"Navigating Through Career Challenges in the Current Market Scenario"** on 29th January 2025 at the Central Auditorium, Integral University. The session featured **Mr. Anil Tripathi, Senior Vice President, Expertrons**, a distinguished professional with over 35 years of experience in leadership, training, and professional development.

Mr. Anil Tripathi, throughout his career, has held senior positions at prominent organizations such as Times Pro and Tata Teleservices. His work in these roles has been instrumental in designing and implementing transformational training programs, empowering individuals and teams to excel. Known for his deep expertise and people-first approach, Mr. Tripathi has mentored numerous professionals, fostering growth and innovation. His ability to align training initiatives with business goals, combined with his leadership acumen, has consistently delivered measurable outcomes.

The event commenced with a welcome address by Ms. Aaliya Salam a BCA 2nd-year student, who expressed gratitude for having Mr. Tripathi present and highlighted the relevance of the session. The speaker's rich experience in shaping careers and mentoring professionals was acknowledged, and the audience was encouraged to look forward in learning valuable strategies for navigating the current job market.

As a mark of appreciation, Dr. Md. Faizan Farooqui presented a floral welcome to Mr. Tripathi, officially initiating the session.

During the session, Mr. Tripathi shared valuable insights into the shifting job market dynamics, the impact of technological advancements, and the evolving skill demands across industries. He emphasized the significance of continuous learning, adaptability, and resilience, encouraging students to cultivate a growth mindset and embrace lifelong learning. Drawing from his vast experience, including leadership roles at Times Pro and Tata Teleservices, he illustrated how professionals can align personal aspirations with industry expectations to build successful careers.

The discussion also addressed the growing importance of digital skills, with Mr. Tripathi highlighting how AI, automation, and emerging technologies are reshaping job roles. He encouraged students to enhance their technical proficiency and professional networks, stressing the role of mentorship and proactive career planning in achieving long-term success.

The session was highly interactive, with students actively engaging in discussions, raising queries about career planning, skill development, and industry trends. Mr. Tripathi's practical responses provided actionable strategies, ensuring that students gained clarity on navigating career uncertainties. The event concluded with a networking session, where students had the opportunity to interact with Mr. Tripathi, faculty members, and peers, fostering a collaborative learning atmosphere.

Finally, the session concluded with a vote of thanks by Dr. Anwar Bari, who expressed gratitude to Mr. Tripathi for his valuable insights and appreciated the efforts of the faculty, students, and organizing committee in making the session a success. The session was coordinated under the leadership of Dr. Anwar Bari, Department Placement Coordinator, Department of Computer Application, Integral University.
