Active Mind Film Club Of The Computer Science and Engineering Department Organised INKWELL : The Story writing Competition on 25th September 2024.

The Inkwell Writing Competition featured 54 participants engaging in a short story challenge based on a theme and a given prompt. After 30 minutes of writing, a twist was introduced, requiring participants to modify their story's ending.

Following the competition, a sub-event was held where participants pitched their stories. The best pitch was awarded an instant prize — a custom-made notebook diary from the Film Club. The winners of the writing competition will be announced during the upcoming Screenwriting Workshop.

The event was organized by the members of the Active Mind Film Club with the assistance of student volunteers and support from faculty. Participants actively contributed during both the writing and pitching sessions, and faculty members evaluated the best pitches.

The event was a resounding success, receiving positive feedback from participants. Both the twist element and the pitching sessions were particularly well-received.

The winners of the competition are as follows:

Winners: Hasan Hashemi, Reem Hamraz, Ayaan Shareef, Ruba Shakeel

Thank you for your support, and we look forward to sharing the results at the Screenwriting Workshop.
