

Report on “Alumni Interaction Session” Organised by Department of Civil Engineering, Integral University on 07th March 2025

The Department of Civil Engineering, Integral University, organised an alumni interaction session in Room No. E015 on 07th March 2025. The objective of the programme was to bridge the gap between current students and alumni, facilitate knowledge exchange, and provide insights into industry practices. The event featured Mr. Rohan Kumar, a distinguished alumnus from the B. Tech 2014 batch, who is currently employed as an Engineer at Bombay Site, L&T a premium construction company.

The session commenced with a warm welcome extended to Mr. Rohan Kumar by Prof Syed Aqeel Ahmad, Head, Department of Civil Engineering, Integral University and presented a Memento to Mr. Rohan Kumar as a token of appreciation.

Mr. Rohan Kumar shared his extensive knowledge and experiences related to construction site management. He provided insights into various aspects of site operations,

emphasizing the importance of site planning, safety compliance, and efficient workflow management. He discussed the challenges faced during project execution, such as labor management, material procurement, unexpected delays, and site safety. He also highlighted the significance of minor details related to the placement of rebars, including lap length, concrete cover, and the placement of concrete in structural members with different loading conditions. Additionally, he provided tips for fresher on securing jobs in the construction industry.

Following the address, students actively participated in an interactive session with Mr. Kumar, asking questions related to industry expectations, job opportunities, and technical challenges. He encouraged students to gain hands-on experience through internships and highlighted the importance of continuous learning to stay updated with industry advancements.

The Alumni Interaction Programme was an enriching experience for students, providing them with practical knowledge and career guidance from an industry expert. Such events play a crucial role in enhancing student awareness and preparing them for real-world challenges in the engineering domain. A total of 40 students from B. tech programme attended the session.

The event concluded with a vote of thanks delivered by Mr. Mohd Kashif Khan, Associate Professor, Department of Civil Engineering, who expressed gratitude to Mr. Rohan Kumar for his valuable time and insightful discussion. He also thanked Prof. Syed Aqeel Ahmad for his motivation and support in organising such events and appreciated the efforts of the students for their participation.
