The Research Club of the Department of Languages, Integral University, organized an online guest lecture on "*Understanding Patents and IPR for Quality Education*", on 10 April 2026. The lecture was designed to provide students and faculty with a deeper understanding of Intellectual Property Rights (IPR) and patents, emphasizing their role in promoting innovation, academic integrity, and quality education.

The speaker for the lecture was **Dr. Noora Abdul Kader, Aligarh Muslim University, Aligarh, India**. She emphasized how awareness of IPR contributes to quality education by encouraging originality, protecting creative works, and promoting ethical research practices. The session began with a welcome address by the organizing secretaries, Dr. Fatima Sahrish and Dr. Shagufta Nazneen Ansari, who highlighted the importance of IPR awareness in academic and research contexts.

The guest speaker delivered an insightful presentation covering:

- The fundamentals of patents and intellectual property rights.
- The significance of IPR in safeguarding original ideas, inventions, and creative works.
- The contribution of patents to fostering innovation and ensuring quality education.
- Practical aspects of patent filing procedures and the legal frameworks governing IPR.

The lecture was followed by an interactive Q&A session, where participants engaged actively, raising queries on plagiarism, patent eligibility, and ethical dimensions of intellectual property. The online guest lecture proved to be highly informative and impactful, drawing 40 enthusiastic participants. The event concluded with a vote of thanks delivered by Prof. H.M.Arif.

### What is IPR??

Intellectual Property Rights (IPR) are the legal rights given to a person or organization over their creations of the mind.

These creations can include inventions, literary works, artistic works, designs, symbols, names, and images used in commerce.

In simple words, **IPR protects your ideas and creations from being copied or used without your permission.**

➤ IPR is a general term covering patents, copyright, trademark, industrial designs, geographical indications, layout design of integrated circuits, undisclosed information (trade secrets) and new plant varieties.

M Ma'am, how are literary works protected when they are published on social media? For example if I post my poetry online and someone else copies it and presents it as their own work what legal protection does copyright law provide to the original author?
