Department of Environmental Science organised **A Sustainability Awareness Rally under the Aegis of Dean, Students Welfare, Integral University** as part of the **Bharat Sustainability Mission 2026**, a Nationwide Initiative in Collaboration with EPTRI (Environment Protection Training and Research Institute- State Climate Action Nodal Agency), on the celebration of **Earth Day on 22 April 2026** to raise awareness about the urgent need to protect our planet. The event aimed to educate people about environmental issues such as pollution, climate change, deforestation, and the importance of sustainable living. The Rally was closely aligned with the Sustainable Development Goals SDGs 13: Climate Action.

The main objectives of the rally were:

- To spread awareness about environmental protection
- To encourage sustainable practices in daily life
- To inspire collective responsibility toward nature
- To highlight the importance of conserving natural resources

The rally began at Central Canteen and covered major areas of the Campus, Academic Blocks administrative building and concluded at the academic Block E near the sports ground of the campus. Participants included students, teachers, volunteers, and members of the local community. Everyone carried placards, banners, and posters with chanting slogans during the march, such as:

- "Save Earth, Save Future"
- "Go Green, Keep it Clean"
- "Reduce, Reuse, Recycle".
- "आज बचाओ धरती को, कल बचाओ जीवन को!"
- "हरियाली लाओ, पृथ्वी बचाओ!"

The rally was successfully coordinated by Dr. Rushda Sharf and Dr. Azram Tahoor, Assistant Professors Department of Environmental Science, under the guidance of Prof. Monowar Alam Khalid, Dean, Students Welfare and Officiating Head Department of Environmental Science. The rally was a successful effort in promoting environmental awareness and sustainability, as it not only educated the students but also motivated participants to take responsibility for protecting the environment. Such initiatives play a vital role in building a greener and more sustainable future.
