

INTEGRAL INSTITUTE OF MEDICAL SCIENCES & RESEARCH, INTEGRAL UNIVERSITY, LUCKNOW
TIME TABLE MBBS THIRD PROFESSIONAL PART-1 Batch -2019 (Session 2021-22)

Ref. No:- IIMSR/DO/2021/2672

Date:-29-12-2021

Subjects Color Code		Community Medicine	Ophthalmology	Otorhinolaryngology	Forensic Medicine	Medicine	Surgery	OBG
		Pediatrics	Orthopaedics	Anesthesiology	Dermatology	Psychiatry	Respiratory Medicine	Radiology
		Clinical Postings			--		AETCOM	Pandemic module
Date	Day	8:00AM - 9:00AM	9:00AM - 12.00 PM		12:00 - 1:00 PM		2:00 PM - 3:00 PM	3:00 PM - 4:00 PM
1-Feb-22	Tuesday	FM3.5.1- FM3.6.1 Different types of injuries (accidental, suicidal and homicidal ,. simple, grievous and dangerous etc) (Lecture)	Clinical Postings		CT1.1 Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India CT1.2 Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS) VI- Community Medicine & Micro. (Lecture)		EN1.1 Describe the Anatomy nose and PNS. VI--Anatomy (DOAP)	
2-Feb-22	Wednesday	IM1.1.1 Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including:rheumatic/ valvular. (Lecture)	Clinical Postings		OP 1.1 Describe the physiology of vision-- VI PHYSIOLOGY (Lecture)		CM 9.2 Define, calculate and interpret demographic indices including birth rate, death rate, fertility rates TUTORIAL	
3-Feb-22	Thursday	PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development (Lecture)	Clinical Postings		OG1.1 Define and discuss birth rate, maternal mortality and morbidity- VI--Community Medicine LECTURE		OP1.3.1Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes DOAP	
4-Feb-22	Friday	RD1.1 Define radiation and the interaction of radiation and importance of radiation protection (Lecture)	Clinical Postings		EN4.23 Describe the clinical features, investigations and principles of management of DNS (Lecture)		CM4.3 Demonstrate and describe the steps in evaluation of health promotion and education program- DOAP	
5-Feb-22	Saturday	AS1.1 Describe the evolution of Anaesthesiology as a modern specialty AS1.2 Describe the roles of Anaesthesiologist in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labour analgesia, in the resuscitation of acutely ill) (Lecture)	Clinical Postings		DR1.1 Enumerate the causative and risk factors of acne DR1.3 Describe the treatment and preventive measures for various kinds of acne SDL		--	
6-Feb-22	Sunday	SUNDAY						
7-Feb-22	Monday	CT1.4 Describe the epidemiology, the predisposing factors and microbialand therapeutic factors that determine resistance to drugs CT1.7 Perform and interpret a PPD (mantoux) and describe and discuss the indications and pitfalls of the test VI-Community Medicine, Microbiology & Pharmacology (Lecture)	Clinical Postings		CM- 5.3.1 Define and describe macronutrients related health disorders. their control and management LECT.		FM 3.6.2-FM3.7.2 Age of different injuries, healing and certification.- DOAP	
							PS1.1 Establish rapport and empathy with patients PS1.2 Describe the components of communication PS1.3 Demonstrate breaking of bad news in a simulated environment PS1.4 Describe and demonstrate the importance of confidentiality in patient encounters TUTORIAL	

8-Feb-22	Tuesday	IM1.1.2 Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including: ischemic, hypertrophic inflammatory. (Lecture)	Clinical Postings	PE9.1 Describe the age related nutritional needs of infants, children and adolescents including micronutrients and vitamins. PE9.2 Describe the tools and methods for assessment and classification of nutritional status of infants, children and adolescents. PE9.3 Explains the Calorific value of common Indian foods (Lecture)	EN1.1 Physiology of nose and PNS VI--Physiology (DOAP)	
9-Feb-22	Wednesday	PS2.1 Define stress and describe its components and causes PS2.2 Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance (Lecture)	Clinical Postings	OP 1.2.1 Define, classify and describe the types and methods of correcting refractive errors Lecture	AS4.4 Observe and describe the principles and the steps/ techniques in maintenance of vital organ functions in patients undergoing surgical procedures AS4.5 Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia AS4.6 Observe and describe the principles and the steps/ techniques involved in day care anaesthesia AS4.7 Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room DOAP	
10-Feb-22	Thursday	PE1.5 Define development and discuss the normal developmental mile stones with respect to motor, behaviour, social, adaptive and language (Lecture)	Clinical Postings	OG1.2 Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit--LECTURE VI--Community Medicine	OP 1.3.2 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes DOAP	
11-Feb-22	Friday	CT1.13 Describe and discuss the origin, indications, technique of administration, efficacy and complications of the BCG vaccine VI- Microbiology (Lecture)	Clinical Postings	EN4.29 Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Rhinitis (Lecture)	FM 3.8-FM3.9.1 Fire arm weapons and firearm injuries. Part-I SGL	
12-Feb-22	Saturday	OR1.1.1- Introduction to orthopedics & terminology SGD-1	Clinical Postings	CM- 5.3.2 Define and describe micronutrients related health disorders. Their control and management Lecture	--	
13-Feb-22	Sunday	SUNDAY				
14-Feb-22	Monday	CT1.14 Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, contraindications, interactions and adverse reactions VI- Pharmacology & Microbiology (Lecture)	Clinical Postings	CM10.7.1 Enumerate and describe the basis, principles organization, technical and operational aspects of Family Welfare Program (Lecture)	FM14.12 Describe bullets and cartridges. (DOAP)/SGL DR7.2 Identify Candida species in fungal scrapings and KOH mount DOAP	
15-Feb-22	Tuesday	PS2.3 Define and describe the principles and components of learning memory and emotions PS2.4 Describe the principles of personality development and motivation PS2.5 Define and distinguish normality and abnormality (Lecture)	Clinical Postings	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases (SGD)	EN4.22 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Nasal Obstruction (SGD)	
16-Feb-22	Wednesday	OG1.3 Define and discuss still birth and abortion- (Lecture) VI-Forensic Medicine & Toxicology (Lecture)	Clinical Postings	OP1.2.2 Define, classify and describe the types and methods of correcting refractive errors-SDL	CM 8.3.20 Enumerate and describe National Program for control of Blindness including their prevention and treatment of a case (TUTORIAL)	
17-Feb-22	Thursday	PE2.1 Discuss the etio-pathogenesis, clinical features and management of a child who fails to thrive (Lecture)	Clinical Postings	IM1.9 Describe and discuss the clinical presentation and features, diagnosis, recognition and management of acute rheumatic fever Lecture	OPP 1.3.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes DOAP	

18-Feb-22	Friday	RD1.2 Describe the evolution of Radiodiagnosis. Identify various radiological equipments In the current era (Lecture)	Clinical Postings	EN4.27 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Allergic Rhinitis (Lecture)	FM14.1.1 to FM 14.1.4 Medico-legal reports of injury.(DOAP)
19-Feb-22	Saturday	1.1.2- Fracture classification SDL-1	Clinical Postings	DR5.1 Describe the etiology, microbiology, pathogenesis, natural history,clinical features, presentations and complications of scabies in adults and children SDL	--
20-Feb-22	Sunday	SUNDAY			
21-Feb-22	Monday	CT2.1 Define and classify obstructive airway disease VI- Physiology & Pathology (Lecture)	Clinical Postings	CM10.7.2 Family Welfare Program (Lecture)	RD1.9 Describe the role of Interventional Radiology in common clinical conditions RD1.10 Describe the role of Emergency Radiology, miscellaneous & applied aspects, interaction with clinical department DOAP
22-Feb-22	Tuesday	PS3.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society PS3.2 Enumerate, describe and discuss important signs & symptoms of common mental disorders PS3.4 Describe the importance of establishing rapport with patients PS3.6 Describe and discuss biological, psychological & social factors & their interactions in the causation of mental disorders PS3.12 Describe, discuss and distinguish psychotic & non-psychotic (Mood, Anxiety, Stress related) disorders (Lecture)	Clinical Postings	PE10.1 DEFINE and describe etiopathogenesis and classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM) Lecture	EN3.2 Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy EN4.28 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Vasomotor Rhinitis (DOAP/SGD)
23-Feb-22	Wednesday	RD1.3 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT (Lecture)	Clinical Postings	OP 1.4 Enumerate the indications and describe the principles of refractive surgeries- Lecture	CM10.6.1 Enumerate and describe, demonstrate various family planning methods DOAP
24-Feb-22	Thursday	OG2.1.1 Describe and discuss the development of the female reproductive tract--LECTURE VI- HUMAN ANATOMY- OBG	Clinical Postings	OR1.1.3- Fracture healing LECTURE-1	OP 1.3.4 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes DOAP
25-Feb-22	Friday	RD1.4.1 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy (Lecture)	Clinical Postings	EN4.33 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Sinusitis (Lecture)	FM 14.10 & FM14.11 Examination of various types of injuries such as contusion and identify and describe weapons. (DOAP)
26-Feb-22	Saturday	AS1.3 Enumerate and describe the principle of ethics as it relates to Anaesthesiology AS1.4 Describe the prospects of Anaesthesiology as a career (Lecture)	Clinical Postings	OR1.1.4- Fracture in children LECTURE-2	--
27-Feb-22	Sunday	SUNDAY			

28-Feb-22	Monday	<p>CT2.2 Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease</p> <p>CT2.4 Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea</p> <p>CT2.5 Describe and discuss the genetics of alpha 1 antitrypsin deficiency in emphysema</p> <p>CT2.6 Describe the role of the environment in the cause and exacerbation of obstructive airway disease</p> <p>CT2.7 Describe and discuss allergic and non-allergic precipitants of obstructive airway disease</p> <p>VI- Physiology & Pathology (Lecture)</p>	Clinical Postings	<p>CM8.1.3 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Emerging and reemerging infectious disease. Lecture</p>	<p>PS3.3 Elicit, present and document a history in patients presenting with a mental disorder</p> <p>PS3.5 Perform, demonstrate and document a minimal examination</p> <p>PS3.9 Describe the steps and demonstrate in a simulated environment family education in patients with organic psychiatric disorders</p> <p>TUTORIALS</p>	<p>SU8.2 Demonstrate Professionalism and empathy to the patient undergoing General Surgery</p> <p>DOAP</p>
1-Mar-22	Tuesday	HOLIDAY				
2-Mar-22	Wednesday	<p>PS3.7 Enumerate and describe common organic psychiatric disorders, magnitude, etiology and clinical features</p> <p>PS3.8 Enumerate and describe the essential investigations in patients with organic psychiatric disorders</p> <p>PS3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders</p> <p>PS3.11 Enumerate the appropriate conditions for specialist referral in patients with psychiatric disorders</p> <p>(Lecture)</p>	Clinical Postings	<p>OP2.1.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos-- Lecture</p> <p>VI Anatomy</p>	<p>CM10.1 Describe the current status of Reproductive, maternal, newborn and Child Health</p> <p>DOAP</p>	
3-Mar-22	Thursday	<p>PE12.1 Discuss the RDA, dietary sources of Vitamin A and their role in Health and disease. PE12.2 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin A. Lecture</p> <p>PE12.3 Identify the clinical features of dietary deficiency / excess of Vitamin A. PE12.4 Diagnose patients with Vitamin A deficiency, classify and plan management. PE12.5 Discuss the Vitamin A prophylaxis program and their recommendations</p> <p>(Lecture)</p>	Clinical Postings	<p>IM2.23 Describe and discuss the indications for nitrates, anti platelet agents, gpIIb IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes</p> <p>Lecture</p>	<p>OP2.2 Demonstrate the symptoms & clinical signs of conditions enumerated in OP2.1 DOAP</p>	
4-Mar-22	Friday	<p>OR1.1.5- Prehospital care, triage and Casualty management SGD-2</p>	Clinical Postings	<p>EN4.25 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Nasal Polyps (Lecture)</p>	<p>FM3.11-FM 3.11.2 Regional injuries Part-I</p> <p>Lecture</p>	<p>DR8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions</p> <p>DOAP</p>

5-Mar-22	Saturday	AS3.1 Describe the principles of preoperative evaluation AS3.2 Elicit, present and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to preoperative anaesthetic evaluation AS3.3 Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery HI- Gen. Surgery & Gen. Medicine (Lecture)	Clinical Postings	SU26.3 Describe the clinical features of mediastinal diseases and the principles of management SGD	--
6-Mar-22	Sunday	SUNDAY			
7-Mar-22	Monday	DR1.1 Enumerate the causative and risk factors of acne DR1.3 Describe the treatment and preventive measures for various kinds of acne (Lecture)	Clinical Postings	PS4.1 Describe the magnitude and etiology of alcohol and substance use disorders PS4.2 Elicit, describe and document clinical features of alcohol and substance use disorders PS4.3 Enumerate and describe the indications and interpret laboratory and other tests used in alcohol and substance abuse disorders Lecture	FM3.11.3-FM3.11.5 Regional injuries Part-II Lecture DR8.3 Identify and distinguish herpes zoster and varicella from other skin lesions DOAP
8-Mar-22	Tuesday	CT2.16 Discuss and describe therapies for OAD including bronchodilators, leukotriene inhibitors, mast cell stabilisers, theophylline, inhaled and systemic steroids, oxygen and immunotherapy CT2.24 Recognise the impact of OAD on patient's quality of life, well being, work and family CT2.25 Discuss and describe the impact of OAD on the society and workplace CT2.27 Demonstrate an understanding of patient's inability to change working, living and environmental factors that influence progression of airway disease VI- Pharmacology (Lecture)	Clinical Postings	Written/ Viva (Forensic Medicine)	EN4.30 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Epistaxis EN 2.13 Identify, resuscitate and manage ENT emergencies in a simulated environment (including anterior nasal packing, removal of foreign bodies in nose) (DOAP)
9-Mar-22	Wednesday	IM4.3 Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India including bacterial, parasitic and viral causes (e.g. Dengue, Chikungunya, Typhus) (Lecture)	Clinical Postings	OP2.1.2 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos-- VI Anatomy SDL	OG35.11 Demonstrate the correct use of appropriate universal precautions for self-protection against HIV and hepatitis and counsel patients--DOAP--SKILL LAB

10-Mar-22	Thursday	PE12.6 Discuss the RDA, dietary sources of Vitamin D and their role in health and disease. PE12.7 Describe the causes, clinical features, diagnosis and management of Deficiency / excess of Vitamin D (Rickets and Hypervitaminosis D). PE12.8 Identify the clinical features of dietary deficiency of Vitamin D. PE12.9 Assess patients with Vitamin D deficiency, diagnose, classify and plan management. PE12.10 Discuss the role of screening for Vitamin D deficiency (Lecture)	Clinical Postings	OG2.1.2 Describe and discuss the anatomy of the female reproductive tract, relationship to other pelvic organs--SGD VI -HUMAN ANATOMY-	OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment DOAP
11-Mar-22	Friday	RD1.4.2 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy (Lecture)	Clinical Postings	EN4.34 Describe the clinical features, investigations and principles of management of Tumors of Maxilla (Lecture)	FM3.13-FM3.14.1 Sexual offences Part-I (Classifications, Definitions, IPCs and examination of victim) SGL
12-Mar-22	Saturday	AS3.4 Choose and interpret appropriate testing for patients undergoing Surgery AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation HI- Gen. Surgery & Gen. Medicine AS3.6 Choose and write a prescription for appropriate premedications for patients undergoing surgery VI- Pharmacology (Lecture)	Clinical Postings	DR8.4 Identify and distinguish viral warts from other skin lesions DOAP	--
13-Mar-22	Sunday	SUNDAY			
14-Mar-22	Monday	CT2.20 Describe and discuss the principles and use of oxygen therapy in the hospital and at home CT2.3 Enumerate and describe the causes of acute episodes in patients with obstructive airway disease (Lecture)	Clinical Postings	CM17.5 Describe health care delivery in India (Lecture)	RD1.6 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery SDI
15-Mar-22	Tuesday	PS4.4 Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy PS4.5 Demonstrate family education in a patient with alcohol and substance abuse in a simulated environment PS4.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in alcohol and substance abuse PS4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders (Lecture)	Clinical Postings	IM4.8 Discuss and describe the pathophysiology, aetiology and clinical manifestations of fever of unknown origin (FUO) including in a normal host, neutropenic host, nosocomial host and a host with HIV disease. Lecture	EN3.5 Observe and describe the indications for and steps involved in the surgical procedures in nose EN4.24 Enumerate the indications observe and describe the steps in Septoplasty (SGD)

16-Mar-22	Wednesday	OG2.1.3. Describe and discuss the , applied anatomy and devevelopment of female genital tract as related to Obstetrics and Gynaecology. LECTURE VI -HUMAN ANATOMY	Clinical Postings	OP2.4 Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis- Lecture	CM8.1.4 Describe and discuss the control measures of COVID-19 at the primary care level . DOAP
17-Mar-22	Thursday	PE12.19 Discuss the RDA , dietary sources of Vitamin C and their role inHealth and disease. PE12.20 Describe the causes, clinical features, diagnosis and managementof deficiency of Vitamin C (scurvy). PE12.21 Identify the clinical features of Vitamin C deficiency (Lecture)	Clinical Postings	CM17.3 Describe primary health care, its components and principles SGD	OP2.3.1 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatic cilia removal by epilation DOAP
18-Mar-22	Friday	HOLIDAY			
19-Mar-22	Saturday	HOLIDAY			
20-Mar-22	Sunday	SUNDAY			
21-Mar-22	Monday	DR2.2 Describe the treatment of vitiligo (Lecture)	Clinical Postings	CM18.1 Define and describe the concept of International health Lecture	FM 3.16-FM 3.17 Sexual offences Part-III (sexual perversions) Lecture DR8.5 Identify and distinguish mollusum contagiosum from other skin lesions DR8.6 Enumerate the indications, describe the procedure and perform a Tzanck smear DOAP
22-Mar-22	Tuesday	IM20.3 Describe the initial approach to the stabilisation of the patient who presents with snake bite. IM20.7 Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti snake venom (Lecture)	Clinical Postings	PE12.15 Discuss the RDA, dietary sources of Vitamin B and their role in health and disease. PE12.16 Describe the causes, clinical features, diagnosis and management of deficiency of B complex Vitamins. PE12.17 Identify the clinical features of Vitamin B complex deficiency. PE12.18 Diagnose patients with Vitamin B complex deficiency and plan management Lecture	EN1.1 Describe the Anatomy of pharynx and oesophagus V - anatomy (SGD)
23-Mar-22	Wednesday	PSS.1 Classify and describe the magnitude and etiology of schizophrenia & other psychotic disorders PSS.2 Enumerate, elicit, describe and document clinical features, positive sy PSS.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy (Lecture)	Clinical Postings	OP2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis- SDL	CM18.2.2 Describe roles of various international health agencies SGD
24-Mar-22	Thursday	PE13.1 Discuss the RDA, dietary sources of Iron and their role in healthand disease. PE13.2 Describe the causes, diagnosis and management of Fe deficiency. PE13.3 Identify the clinical features of dietary deficiency of Iron and make a diagnosis. PE13.5 Propose a management plan for Fe deficiency anaemia (Lecture)	Clinical Postings	OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.SDL -OBG	OP2.3.2 Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac. massage technique in cong. dacryocystitis, and trichiatic cilia removal by epilation DOAP

25-Mar-22	Friday	RD1.5 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine (Lecture)	Clinical Postings	OR1.1.6- Approach to patient with limb injury SGD-3	FM14.14 & FM14.15 Sexual offences-examination and reporting.(DOAP)	
26-Mar-22	Saturday	EN4.35 Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx (Lecture)	Clinical Postings	DR8.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children SDL	--	
27-Mar-22	Sunday	SUNDAY				
28-Mar-22	Monday	DR3.3 Enumerate the indication for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy (Lecture)	Clinical Postings	CM18.2.1 Describe roles of WHO and Unicef as international health agencies (Lecture)	FM14.21.1 to FM 14.21.2 DNA finger printing- collect, preserve, seal, dispatch.SGL PSS.4 Demonstrate family education in a patient with schizophrenia in a simulated environment Tutorials	
29-Mar-22	Tuesday	SU1.1 Describe Basic concepts of homeostasis, enumerate the metabolic changes in injury and their mediators SU1.2 Describe the factors that affect the metabolic response to injury. VI- Physiology & Biochemistry (Lecture)	Clinical Postings	PS5.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in schizophrenia PS5.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders Lecture	EN4.40 Observe and describe the indications for and steps involved in a tonsillectomy / adenoidectomy (SGD)	
30-Mar-22	Wednesday	OG3.1.1- Describe the physiology of ovulation and menstruation. LECTURE VI --PHYSIOLOGY	Clinical Postings	OP2.6 Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis--Lecture	CM20.2 Describe various issues during outbreaks and their prevention DOAP	
31-Mar-22	Thursday	PE13.7 Discuss the RDA , dietary sources of Iodine and their role in Health and disease. PE13.8 Describe the causes, diagnosis and management of deficiency of Iodine. PE13.9 Identify the clinical features of Iodine deficiency disorders. PE13.10 Discuss the National Goiter Control program and their recommendations. (Lecture)	Clinical Postings	OG3.1.2-Describe the physiology of fertilization, implantation and gametogenesis.LECTURE VI-PHYSIOLOGY	OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain DOAP	
1-Apr-22	Friday	RD1.6 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery (Lecture)	Clinical Postings	EN4.32 Describe the clinical features, investigations and principles of management of nasopharyngeal Angiofibroma (Lecture)	FM 14.6, FM 14.7& FM14.8 Medico-legal examination of hair, semen, blood, ABO, Rh and other biological fluid. (DOAP)	

2-Apr-22	Saturday	AS4.1 Describe and discuss the pharmacology of drugs used in induction and maintenance of general anaesthesia (including intravenous and inhalation induction agents, opiate and non-opiate analgesics, depolarising and non depolarising muscle relaxants, anticholinesterases) AS4.2 Describe the anatomy of the airway and its implications for general anaesthesia AS4.3 Observe and describe the principles and the practical aspects of induction and maintenance of anesthesia VI- Pharmacology & Anatomy (Lecture)	Clinical Postings	OR1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock Lecture-3	--
3-Apr-22	Sunday	SUNDAY			
4-Apr-22	Monday	IM21.3 Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therapy (Lecture)	Clinical Postings	CM10.8 Describe the physiology, clinical management and principles of adolescent health including ARSH SGD	FM3.20-FM3.21 Disputed paternity and maternity and PCPNDT SGL
5-Apr-22	Tuesday	SU8.1 Describe the principles of Ethics as it pertains to General Surgery SU8.3 Discuss Medico-legal issues in surgical practice VI- Forensic Medicine (AETCOM) (Lecture)	Clinical Postings	AETCOM 3.2.3 Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors ANCHORING LECTURE Dept. of Orthopaedics	EN3.5 Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat (SGD)
6-Apr-22	Wednesday	IM2.5 Define the various acute coronary syndromes and describe their evolution, natural history and outcomes (Lecture)	Clinical Postings	OP2.7 Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours OP2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral- Lecture	CM20.1 List important public health events of last five years SGD
7-Apr-22	Thursday	PE13.8 Describe the causes, diagnosis and management of deficiency of Iodine. PE13.9 Identify the clinical features of Iodine deficiency disorders. PE13.10 Discuss the National Goiter Control program and their recommendations Iodine (Lecture)	Clinical Postings	OG12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV-SDL	OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness DOAP
8-Apr-22	Friday	IM22.7 Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypokalemia. IM22.8 Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hyperkalemia (Lecture)	Clinical Postings	EN4.37 Describe the clinical features, investigations and principles of management of Ludwig's angina (Lecture)	OG14.1 Enumerate and discuss the diameters of maternal pelvis and types DOAP--SKILL LAB

9-Apr-22	Saturday	FM3.18 Human Genitalia, Virginity, defloration and their MLI (Lecture)	Clinical Postings	SU26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management SGD	--	
10-Apr-22	Sunday	SUNDAY				
11-Apr-22	Monday	DR4.2 Enumerate and describe the treatment modalities for lichen planus (Lecture)	Clinical Postings	CM19.3 Describe counterfeit medicine and its prevention Lecture	FM3.19 Pregnancy, delivery, signs and their MLI SGL	
12-Apr-22	Tuesday	PS6.4 Describe the treatment of depression including behavioural and pharmacologic therapy PS6.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in depression PS6.7 Enumerate the appropriate conditions for specialist referral in patients with depression (Lecture)	Clinical Postings	PE13.11 Discuss the RDA, dietary sources of Calcium and their role in health and disease. PE13.12 Describe the causes, clinical features, diagnosis and management of Ca Deficiency. Lecture	EN 1.1 Describe the Anatomy of ear VI- Anatomy (SGD)	
13-Apr-22	Wednesday	FM3.18 Human Genitalia, Virginity, defloration and their MLI (Lecture)	Clinical Postings	OP3.3 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications. and management of various causes of conjunctivitis-- Lecture	PS6.5 Demonstrate family education in a patient with depression in a simulated environment 'PS7.5 Demonstrate family education in a patient with bipolar disorders in a simulated environment Tutorials	
14-Apr-22	Thursday	HOLIDAY				
15-Apr-22	Friday	HOLIDAY				
16-Apr-22	Saturday	AS7.1 Visit, enumerate and describe the functions of an Intensive Care Unit (Lecture)	Clinical Postings	CM17.1 Define and describe the concept of health care to community Lecture	--	
17-Apr-22	Sunday	SUNDAY				
18-Apr-22	Monday	IM5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease. (Lecture)	Clinical Postings	CM16.1 Define and describe the concept of Health planning Lecture	FM3.27 Methods of MTP and abortion its complications. Lecture	SU11.3 Demonstrate maintenance of an airway in a mannequin or equivalent (DOAP)
19-Apr-22	Tuesday	SU11.2 Enumerate the principles of general, regional, and local Anaesthesia. SU11.5 Describe principles of providing post-operative pain relief and management of chronic pain HI- Anaesthesiology (Lecture)	Clinical Postings	PS7.1 Classify and describe the magnitude and etiology of bipolar disorders PS7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders (Lecture)	EN 1.1 Describe physiology of ear V- physiology (SGD)	
20-Apr-22	Wednesday	OG4.1.1- Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development. LECTURE VI - HUMAN ANATOMY	Clinical Postings	OP3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma. OP3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh Lecture	CM16.2 Describe planning cycle DOAP	
21-Apr-22	Thursday	PE13.13 Discuss the RDA, dietary sources of Magnesium and their role in health and disease. PE13.14 Describe the causes, clinical features, diagnosis and management of Magnesium Deficiency (Lecture)	Clinical Postings	OG4.1.2- Describe and discuss the developmet of placenta and teratogenesis - LECTURE VI -HUMAN ANATOMY	OP AN41.1 Describe & demonstrate parts and layers of eyeball Integrated Teaching (SGD)	

22-Apr-22	Friday	RD1.7.1 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Pediatrics (Lecture)	Clinical Postings	EN4.41 Describe the clinical features, investigations and principles of management of Acute & chronic abscesses in relation to Pharynx (Lecture)	FM3.22-FM3.23 impotence and sterility. SDL	SU12.1 Enumerate the causes and consequences of malnutrition in the surgical patient SGD
23-Apr-22	Saturday	OR1.4 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of soft tissue injury SDL-2	Clinical Postings	IM18.10 Choose and interpret the appropriate diagnostic testing in young patients with a cerebrovascular accident (CVA) IM18.11 Describe the initial supportive management of a patient presenting with a cerebrovascular accident (CVA) Lecture		--
24-Apr-22	Sunday	SUNDAY				
25-Apr-22	Monday	IM23.3 Discuss and describe the aetiology, causes, clinical manifestations, complications, diagnosis and management of common vitamin deficiencies (Lecture)	Clinical Postings	CM16.3 Describe Health management techniques Lecture		RD1.11 Describe preparation of patient for common imaging procedures DOAP
26-Apr-22	Tuesday	SU11.4 Enumerate the indications and principles of day care General Surgery SU11.6 Describe Principles of safe General Surgery (Lecture)	Clinical Postings	PE20.1 Define the common neonatal nomenclatures including the classification and describe the characteristics of a Normal Term Neonate and High Risk Neonates. PE20.2 Explain the care of a normal neonate (Lecture)	EN4.4 Demonstrate the correct technique to hold visualize and assess the mobility of the tympanic membrane and its mobility and interpret and diagrammatically represent the findings EN4.9 Demonstrate the correct technique for syringing wax from the ear in a simulated environment (DOAP)	
27-Apr-22	Wednesday	PS7.4 Describe the treatment of bipolar disorders including behavioural and pharmacologic therapy PS7.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in bipolar disorders PS7.7 Enumerate the appropriate conditions for specialist referral in patients with bipolar disorders (Lecture)	Clinical Postings	OP3.6 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon-SDL	AETCOM 3.3.2 Identify, discuss and defend, medico-legal, socio-cultural and ethical issues as they pertain to consent for surgical procedures Focused group discussion Dept. of Community Medicine	
28-Apr-22	Thursday	PE20.7 Discuss the etiology, clinical features and management of Birth asphyxia. (Lecture)	Clinical Postings	FM3.24-FM3.26 Contraception and ART clinics. (Lecture)	OP - PY10.18 Describe and discuss the physiological basis of lesion in visual pathway Integrated Teaching (SGD)	
29-Apr-22	Friday	HOLIDAY				
30-Apr-22	Saturday	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. (Lecture)	Clinical Postings	OR1.5.1- Dislocation of upper limb joints SGD-4		--
1-May-22	Sunday	SUNDAY				
2-May-22	Monday	HOLIDAY				
3-May-22	Tuesday	HOLIDAY				
4-May-22	Wednesday	IM5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy (Lecture)	Clinical Postings	OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration (VI-ANATOMY)--Lecture	16.4.2 National policies related to health and health planning SGD	

5-May-22	Thursday	PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn (Lecture)	Clinical Postings	FM3.28-FM3.29 Evidences of abortion, child abuse and battered baby syndrome. (Lecture)	OP3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment DOAP	
6-May-22	Friday	IM24.22 Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly (Lecture)	Clinical Postings	EN4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Tonsillitis (Lecture)	AS5.1 Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined) AS5.2 Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces AS5.3 Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks AS5.4 Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anaesthesia VI- Anatomy & Pharmacology DOAP	
7-May-22	Saturday	AS8.1 Describe the anatomical correlates and physiologic principles of pain AS8.2 Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate AS8.3 Describe the pharmacology and use of drugs in the management of pain VI- Pharmacology (Lecture)	Clinical Postings	CM 20.3 Describe any event important to Health of the Community Lecture	--	
8-May-22	Sunday	SUNDAY				
9-May-22	Monday	DR5.1 Describe the etiology, microbiology, pathogenesis, natural history, clinical features, presentations and complications of scabies in adults and children DR5.3 Enumerate and describe the pharmacology, administration and adverse reaction of pharmacotherapies for scabies DR6.1 Describe the etiology pathogenesis and diagnostic features of pediculosis in adults and children (Lecture)	Clinical Postings	CM10.4.2 Describe Child survival and safe motherhood interventions (CSSM) Lecture	OG4.1.3- Describe and discuss the anatomy and physiology of placenta-LECTURE VI -HUMAN ANATOMY	SU12.2 Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient SGD
10-May-22	Tuesday	SU14.1 Describe Aseptic techniques, sterilization and disinfection VI- Microbiology (Lecture)	Clinical Postings	FM3.30-FM3.31 Human Torture, NHRC SGL	EN4.14 Describe the clinical features, investigations and principles of management of Sudden Sensorineural Hearing Loss (SGD)	
11-May-22	Wednesday	PS8.1 Enumerate and describe the magnitude and etiology of anxiety disorders PS8.2 Enumerate, elicit, describe and document clinical features in patients with anxiety disorders PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders Lecture	Clinical Postings	OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis-- Lecture	CM 20.4.1 Demonstrate awareness about laws pertaining to practice of medicine such as Clinical establishment Act. DOAP	
12-May-22	Thursday	PE20.9 Discuss the etiology, clinical features and management of Birthinjuries (Lecture)	Clinical Postings	OG7.1.1- Describe and discuss the changes in the genital tract, cardiovascular system and respiratory system in pregnancy--LECTURE VI-PHYSIOLOGY	Ophthal IM24.15 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of vision and visual loss in the elderly - SGD	

13-May-22	Friday	IM26.1 Enumerate and describe professional qualities and roles of a physician IM26.6 Describe and discuss the role of a physician in health care system. IM26.32 Demonstrate appropriate respect to colleagues in the profession (Lecture)	Clinical Postings	EN4.38 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of dysphagia (Lecture) VI- Pediatrics	AS5.5 Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children AS5.6 Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks) AS6.1 Describe the principles of monitoring and resuscitation in the recovery room AS6.2 Observe and enumerate the contents of the crash cart and describe the equipment used in the recovery room AS6.3 Describe the common complications encountered by patients in the recovery room, their recognition and principles of management HI- Gen. Surgery DOAP
14-May-22	Saturday	AETCOM 3.3.1 Demonstrate ability to communicate to patients in a patient, respectful, nonthreatening, non-judgmental and empathetic manner SGD Dept. of Forensic Medicine	Clinical Postings	IM17.13 Describe the pharmacology, dose, adverse reactions and regimens of drugs used in the treatment of bacterial, tubercular and viral meningitis Lecture	--
15-May-22	Sunday	SUNDAY			
16-May-22	Monday	HOLIDAY			
17-May-22	Tuesday	OP4.3 Enumerate the causes of corneal edema OP4.5 Enumerate the causes of corneal blindness-- Lecture	Clinical Postings	CM3.1.2 Describe the health hazards of noise pollution Lecture	EN4.15 Describe the clinical features, investigations and principles of management of Noise Induced Hearing Loss (SGD)
18-May-22	Wednesday	PS8.4 Describe the treatment of anxiety disorders including behavioural and pharmacologic therapy PS8.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in anxiety disorders PS8.7 Enumerate the appropriate conditions for specialist referral in anxiety disorders (Lecture)	Clinical Postings	OR1.5.2- Dislocation of lower limb joints SGD 5	CM 20.4.2 Demonstrate awareness about laws pertaining to practice of medicine such as Human Organ transplantation act and its implication DOAP
19-May-22	Thursday	PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born (Lecture)	Clinical Postings	OG7.1.2- Describe and discuss the changes in the haematology, renal and gastrointestinal system in pregnancy. LECTURE VI-PHYSIOLOGY	OP4.10 Counsel patients and family about eye donation in a simulated environment DOAP
20-May-22	Friday	IM24.10 Describe and discuss the aetiopathogenesis, clinical presentation, identification, functional changes, acute care, stabilization, management and rehabilitation of COPD in the elderly. (Lecture)	Clinical Postings	EN4.52 Describe the Clinical features, Investigations and principles of management of diseases of Oesophagus (Lecture)	AS7.2 Enumerate and describe the criteria for admission and discharge of a patient to an ICU AS7.3 Observe and describe the management of an unconscious patient AS7.4 Observe and describe the basic setup process of a ventilator AS7.5 Observe and describe the principles of monitoring in an ICU HI- Gen. Medicine DOAP
21-May-22	Saturday	AS10.1 Enumerate the hazards of incorrect patient positioning AS10.2 Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them AS10.3 Describe the role of communication in patient safety AS10.4 Define and describe common medical and medication errors in anaesthesia HI- Gen. Surgery Lecture	Clinical Postings	IM6.2 Define and classify HIV AIDS based on the CDC criteria. IM6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections. Lecture	--
22-May-22	Sunday	SUNDAY			

23-May-22	Monday	DR7.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children DR7.3 Describe the pharmacology and action of antifungal (systemic and topical) agents. Enumerate side effects of antifungal therapy (Lecture)	Clinical Postings	CM9.6 Describe the National Population Policy Lecture	IM6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis in HIV. Lecture	PS8.5 Demonstrate family education in a patient with anxiety disorders in a simulated environment Tutorials
24-May-22	Tuesday	PS9.1 Enumerate and describe the magnitude and etiology of stress related disorders PS9.2 Enumerate, elicit, describe clinical patients with stress related disorders PS9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders (Lecture)	Clinical Postings	PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation) Lecture	EN4.10 Observe and describe the indications for and steps involved in myringotomy and myringoplasty (DOAP/SGD)	
25-May-22	Wednesday	IM7.10 Describe the systemic manifestations of rheumatologic disease. IM7.23 Describe the basis for biologic and disease modifying therapy in rheumatologic diseases (Lecture)	Clinical Postings	OP4.6 Enumerate the indications and the types of keratoplasty- SDL	CM10.3 Describe local customs and practices during pregnancy, childbirth, 'lactation and child feeding practices SGD	
26-May-22	Thursday	PE20.16 Discuss the etiology, clinical features and management of NeonatalSepsis (Lecture)	Clinical Postings	OG9.4.1-Discuss the clinical features, laboratory investigations, ultrasonography and differential diagnosis, of gestational trophoblastic neoplasms- LECTURE RADIODIAGNOSIS SGD	Ophthal - PA36.1 Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma SGD	
27-May-22	Friday	IM6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies Lecture	Clinical Postings	OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation/ hip dislocation/ knee dislocation DOAP-1	FM3.32 Report preparation, interpretation, opinion in MLCs.SDL	AS2.1 Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates. VI - Gen. Medicine & Paediatric DOAP
28-May-22	Saturday	EN4.2 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear(Lecture)	Clinical Postings	FM3.33 Human right violations, sexual assaults-psychological consultation, rhabilitation. SDL		--
29-May-22	Sunday			SUNDAY		
30-May-22	Monday	DR8.1 Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children DR8.7 Enumerate the indications and describe the pharmacology,administration and adverse reaction of pharmacotherapies for common viral illnesses of the skin (Lecture)	Clinical Postings	CM17.2 Describe community diagnosis Lecture	PS9.5 Demonstrate family education in a patient with stress related disorders in a simulated environment PS10.5 Demonstrate family education in a patient with somatoform, dissociative and conversion disorders in a simulated environment TUTORIALS	

31-May-22	Tuesday	FM8.1-FM8.3 Toxicology – History, Classification Lecture	Clinical Postings	PS7.1 Classify and describe the magnitude and etiology of bipolar PS7.2 Enumerate, elicit, describe and document clinical features in patients with bipolar disorders Lecture	EN4.16 Observe and describe the indications for and steps involved in the performance of pure tone audiometry EN 2.8 Demonstrate the correct technique to perform and interpret pure tone audiogram EN4.17 Enumerate the indications and interpret the results of an audiogram (DOAP)	
1-Jun-22	Wednesday	OG9.4.2- Discuss the management and follow up of gestational trophoblastic neoplasms-LECTURE HI-RADIOLOGICAL	Clinical Postings	OP4.4 Enumerate the causes and discuss the management of dry eye OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy--Lecture	AETCOM 3.3.3 Administer informed consent and appropriately address patient queries to a patient undergoing a surgical procedure in a simulated environment SKILL LAB SESSION Dept. of Surgery	
2-Jun-22	Thursday	SU16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery (Lecture)	Clinical Postings	OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy SDI ORG	Ophthal- AN41.3 Describe the position, nerve supply and actions of intraocular muscles SGD	
3-Jun-22	Friday	IM1.25 Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation (Lecture)	Clinical Postings	EN4.3 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Acute Suppurative Otitis Media (ASOM) (lecture) (VI - with pediatrics)	FM8.6-FM8.7 Toxicology – General Management Part-I Lecture AS2.2 Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults and children VI- Gen. Medicine DOAP	
4-Jun-22	Saturday	CM5.1 Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological SGD	Clinical Postings	FM8.8-FM8.9 Toxicology – General Management Part-II, records, preservation and dispatch of relevant samples. SGL	--	
5-Jun-22	Sunday	SUNDAY				
6-Jun-22	Monday	DR9.1 Classify describe the epidemiology etiology microbiology pathogenesis, clinical presentations and diagnostic features of Leprosy (Lecture)	Clinical Postings	FORMATIVE ASSESSMENT -I	FM8.4-FM8.5 NDPS Act and autopsy in cases of poisoning. SGL SU12.3 Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications SGD	
7-Jun-22	Tuesday	SU18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections (Lecture)	Clinical Postings	PS9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy PS9.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in stress related disorders PS9.7 Enumerate the appropriate conditions for specialist referral in stress disorders Lecture	EN4.21 Describe the clinical features, investigations and principles of management of Tinnitus (SGD)	
8-Jun-22	Wednesday	IM8.4 Define and classify hypertension IM8.5 Describe and discuss the differences between primary and secondary hypertension (Lecture)	Clinical Postings	OP5.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis-Lecture	CM5.2 Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method DOAP	
9-Jun-22	Thursday	FM8.10 Analytical Toxicology. Lecture	Clinical Postings	IM8.6 Define, describe and discuss and recognise hypertensive urgency and emergency. IM8.8 Describe, discuss and identify target organ damage due to hypertension SGD	CM 3.1.1 Introduction of case scenario LECTURE SU14.1 Describe Aseptic techniques, sterilization and disinfection SGD	

		Subjects	Lectures (hours)	Tutorials/Seminars/ Integrated learning practical (hours)	Self directed learning (hours)	Total (hours)

10-Jun-22	Friday	First Terminal Examination (Forensic Medicine)						
11-Jun-22	Saturday	First Terminal Examination (ENT)						
12-Jun-22	Sunday	SUNDAY						
13-Jun-22	Monday	First Terminal Examination (Ophthalmology)						
14-Jun-22	Tuesday	First Terminal Examination (Community Medicine)						
15-Jun-22	Wednesday	First Terminal Examination (Medicine)						
16-Jun-22	Thursday	First Terminal Examination (Surgery)						
17-Jun-22	Friday	First Terminal Examination (OBG)						
18-Jun-22	Saturday	First Terminal Examination (Pediatrics)						
19-Jun-22	Sunday	SUNDAY						
20-Jun-22	Monday	DR9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions (Lecture)	Clinical Postings			CM3.6.1 Describe the role of vectors in the causation of diseases. CM3.6.2 . Discuss National Vector Borne disease Control Program Lecture	RD1.12 Describe the effects of radiation in pregnancy and the methods of prevention/ minimization of radiation exposure RD1.13 Describe the components of the PC & PNDT Act and its medicolegal implications DOAP	
21-Jun-22	Tuesday	AETCOM 3.2.1 Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors (Introduction of case) LECTURE Dept. of Medicine	Clinical Postings			G20.1.1 Enumerate the indications and describe and discuss the legal aspects, indications, for first and second trimester MTP; Medical Termination of Pregnancy - SGD VI-FM	EN4.19 Describe the clinical features, investigations and principles of management of Vertigo (SGD)	
22-Jun-22	Wednesday	OG22.1 Describe the clinical characteristics of physiological vaginal discharge. LECTURE	Clinical Postings			OP5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis VI-Medicine-- Lecture	AETCOM 3.2.4 Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors DISCUSSION AND CLOSURE LECTURE Dept. of Community Medicine	
23-Jun-22	Thursday	FM9.1.1-FM9.1.2 Corrosives poisoning Part-I (Lecture)	Clinical Postings			OG22.2.1- Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis. SGD-OBG	Ophthal - AN31.5 Explain the anatomical basis of oculomotor, trochlear and abducent nerve palsies along with strabismus - SGD	
24-Jun-22	Friday	CT2.26 Discuss and describe preventive measures to reduce OAD in workplaces VI- Community Medicine (Lecture)	Clinical Postings			IM19.2 Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors IM 19.8 Discuss and describe the pharmacology, dose, side effects and interactions used in the drug therapy of Parkinson's syndrome Lecture	AS8.4 Describe the principles of pain management in palliative care AS8.5 Describe the principles of pain management in the terminally ill AS9.1 Establish intravenous access in a simulated environment AS9.2 Establish central venous access in a simulated environment AS9.3 Describe the principles of fluid therapy in the preoperative period AS9.4 Enumerate blood products and describe the use of blood products in the preoperative period HI- Gen. Medicine, Gen. Surgery & VI- Pharmacology , Pathology DOAP	

25-Jun-22	Saturday	<p>PS10.1 Enumerate and describe the magnitude and etiology of somatoform, dissociative and conversion disorders</p> <p>PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform, dissociative and conversion disorders</p> <p>PS10.3 Enumerate and describe the indications and interpret laboratory and other tests used in somatoform, dissociative and conversion disorders</p> <p>PS10.4 Describe the treatment of somatoform disorders including behavioural, psychosocial and pharmacologic therapy</p> <p>PS10.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in somatoform, dissociative and conversion disorders</p> <p>PS10.7 Enumerate the appropriate conditions for specialist referral in patients with somato form dissociative and conversion disorders (Lecture)</p>	Clinical Postings	FM9.1.3-FM9.1.5 Corrosives poisoning Part-II SGL	--
26-Jun-22	Sunday	SUNDAY			
27-Jun-22	Monday	<p>DR9.5 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for various classes of leprosy based on national guidelines</p> <p>DR9.6 Describe the treatment of Leprosy based on the WHO guidelines (Lecture)</p>	Clinical Postings	CM5.7 Describe food hygiene LECT.	<p>PS11.5 Demonstrate family education in a patient with personality disorders in a simulated environment</p> <p>PS12.5 Demonstrate family education in a patient with psychosomatic disorders in a simulated environment TUTORIALS</p>
28-Jun-22	Tuesday	<p>PS11.1 Enumerate and describe the magnitude and etiology of personality disorders</p> <p>PS11.2 Enumerate, elicit, describe and document clinical features in patients with personality disorders</p> <p>PS11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders</p> <p>PS11.4 Describe the treatment of personality disorders including behavioural, psychosocial and pharmacologic therapy</p> <p>PS11.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in personality disorders</p> <p>PS11.7 Enumerate the appropriate conditions for specialist referral (Lecture)</p>	Clinical Postings	OG22.2.2- Describe and discuss (with special emphasis on Candida, T. vaginalis, bacterial vaginosis) investigations, genital hygiene, management of common causes-SGD	EN2.15 Describe the national programs for prevention of deafness, cancer, noise & environmental pollution V – Community medicine (SGD)
29-Jun-22	Wednesday	OG22.2.3- Describe and discuss the syndromic management OF STI-SGD	Clinical Postings	FM9.2.1-FM9.2.4 Inorganic poison (Phosphorus, Iodine and Barium) SGL	CM3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures DOAP

30-Jun-22	Thursday	SU18.2 Classify skin tumors Differentiate different skin tumors and discuss their management. (Lecture)	Clinical Postings	OR2.1.1- Mechanism of injury, clinical features, investigations and plan management of fracture of clavicle Lecture-4	OP6.6.1 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber DOAP	
1-Jul-22	Friday	RD1.7.2 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Pediatrics Lecture	Clinical Postings	EN4.5 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Otitis Media with effusion (OME)(lecture)	PE 17.1 State the outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS DOAP	
2-Jul-22	Saturday	IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain SGD	Clinical Postings	OP6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition Lecture	--	
3-Jul-22	Sunday	SUNDAY				
4-Jul-22	Monday	DR9.7 Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma. (Lecture)	Clinical Postings	CM8.1.5 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Rubella and Influenza Lect.	RD1.5 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine (DOAP)	
5-Jul-22	Tuesday	SU19.1 Describe the etiology and classification of cleft lip and palate SU19.2 Describe the Principles of reconstruction of cleft lip and palate VI- Anatomy (Lecture)	Clinical Postings	IM1.24 Describe and discuss the pharmacology of drugs including indications, contraindications in the management of heart failure including diuretics, ACE inhibitors, Beta blockers, aldosterone antagonists and cardiac glycosides Tutorials	EN4.53 Describe the clinical features, investigations and principles of management of HIV manifestations of the ENT VI General Medicine (SGD)	
6-Jul-22	Wednesday	IM9.1 Define, describe and classify anemia based on red blood cell size and reticulocyte count. M9.8 Describe and discuss the various tests for iron deficiency (Lecture)	Clinical Postings	OR2.2.1- Mechanism of injury, clinical features, investigations and plan management of fracture of proximal humerus SDL-3	FM5.1.1-FM5.3.1 Forensic Psychiatry Part-II(Common Mental Illnesses, delusions, hallucinations, illusions, etc.) Lecture SU14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general. SGD	
7-Jul-22	Thursday	DR10.3 Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis DR10.4 Describe the prevention of congenital syphilis (Lecture)	Clinical Postings	SU27.4 Describe the types of gangrene and principles of amputation (Lecture)	OP6.6.2 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber DOAP	
8-Jul-22	Friday	HOLIDAY				
9-Jul-22	Saturday	HOLIDAY				
10-Jul-22	Sunday	SUNDAY				
11-Jul-22	Monday	RD1.13 Describe the components of the PC & PNDDT Act and its medicolegal implications SDL	Clinical Postings	CM8.1.6 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for viral hepatitis & Acute diarrheal Disease (Lecture)	EN 1.1 Anatomy of Larynx (DOAP/SGD)	

12-Jul-22	Tuesday	SU20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment. VI- ENT (Lecture)	Clinical Postings	SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas (Lecture)	CM8.3.14 & CM8.3.12 Enumerate and describe Ayushman Bharat Yojna & Janani Suraksha Yojna SGD
13-Jul-22	Wednesday	EN4.7 Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Chronic Suppurative Otitis Media (CSOM) (Lecture)	Clinical Postings	OP6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis-- Lecture	CM8.1.3 Describe and discuss the Epidemiological, Prevention and control measures including the use of essential laboratory tests at the primary care level for Poliomyelitis. Lecture
14-Jul-22	Thursday	OR2.4.1- Shaft humerus, Supracondylar and Intercondylar humerus fractures in children LECTURE-5	Clinical Postings	OG10.1.1- Define, classify and describe the aetiology, pathogenesis, of antepartum haemorrhage in pregnancy-- LECTURE	Ophthal -PH1.58.1 Describe drugs used in Ocular disorders Seminar
15-Jul-22	Friday	CT2.17 Describe and discuss the indications for vaccinations in OAD Lecture	Clinical Postings	OG10.1.2.-Describe the clinical features, ultrasonography and differential diagnosis of antepartum haemorrhage in pregnancy-- LECTURE-OBG	PE16.1 Explain the components of Integrated Management of Neonatal and Childhood Illnesses (IMNCI) guidelines and method of Risk stratification. M Assess children <2 months using IMNCI Guidelines. PE16.3 Assess children >2 to 5 years using IMNCI guidelines and Stratify Risk DOAP
16-Jul-22	Saturday	AETCOM 3.4.1 Identify, discuss and defend medico-legal, socio-cultural and ethical issues as it pertains to confidentiality in patient care INTRODUCTION TO THE CASE LECTURE Dept. of Forensic Medicine	Clinical Postings	DR9 1 Classify describe the epidemiology etiology microbiology pathogenesis, clinical presentations and diagnostic features of Leprosy SDL	--
17-Jul-22	Sunday				
18-Jul-22	Monday	DR10.6 Describe the etiology, diagnostic and clinical features of nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) DR10.8 Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) (Lecture)	Clinical Postings	CM8.1.7 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for viral hepatitis & Acute diarrheal Disease Lecture	CT1.12 Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing CT1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis SGD
19-Jul-22	Tuesday	SU21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands SU21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands (Lecture)	Clinical Postings	FMS.4.1-FMS.6.1 Forensic Psychiatry Part-II (Insanity, Delirium tremens, Indian Mental Health Act, 1987) Lecture	EN 1.1 Physiology of Larynx V- physiology (SGD)
20-Jul-22	Wednesday	IM10.1 Define, describe and differentiate between acute and chronic renal failure. IM10.2 Classify, describe and differentiate the pathophysiologic causes of acute renal fail SGD	Clinical Postings	OP6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations VI (MEDICINE)-- Lecture	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program. PE19.2 Explain the epidemiology of Vaccine preventable diseases.

21-Jul-22	Thursday	EN4.8 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Squamosal type of CSOM (Lecture)	Clinical Postings	OG10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management- SGD	Ophthal- PH1.58.2 Describe drugs used in Ocular disorders Seminar	
22-Jul-22	Friday	FORMATIVE ASSESMENT FORENSIC MED	Clinical Postings	OR2.4.2- Shaft humerus, Supracondylar and Intercondylar humerus fractures in adults SDL-4	CM8.3.9 & 8.3.10 Enumerate and describe National Rural Health Program, National Urban Health Program Community Medicine SDL	
23-Jul-22	Saturday	FORMATIVE ASSESMENT 1 OBS AND GYNAE	Clinical Postings	SU27.8 Demonstrate the correct examination of the lymphatic system DOAP	--	
24-Jul-22	Sunday	SUNDAY				
25-Jul-22	Monday	DR10.9 Describe the syndromic approach to ulcerative sexually transmitted (Lecture)	Clinical Postings	CM8.1.8 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Zika virus Disease. Lecture	CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS) CT1.17 Define criteria for the cure of Tuberculosis; describe and recognise	
26-Jul-22	Tuesday	SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis. VI- Anatomy (Lecture)	Clinical Postings	FM6.1.1-FM6.1.3 Body fluids, skin nails, vaginal smear, viscera skull for histo pathological examinations. SGL	EN3.3 Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy (DOAP)	
27-Jul-22	Wednesday	PS12.1 Enumerate and describe the magnitude and etiology of psychosomatic disorders PS12.2 Enumerate, elicit, describe and document clinical features in patients with psychosomatic disorders PS12.3 Enumerate and describe the indications and interpret laboratory and other tests used in psychosomatic disorders PS12.4 Describe the treatment of psychosomatic disorders including behavioural, psychosocial and pharmacologic therapy PS12.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosomatic disorders PS12.7 Enumerate the appropriate conditions for specialist referral (Lecture)	Clinical Postings	OP6.4 Describe and distinguish hyphema and hypopyon OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates-- (Lecture)	OR2.5.1- Mechanism of injury, clinical features, investigations and principles of management of fracture of both bones forearm and galeazzi and monteggia injury SGD-6 OR2.6.1- Mechanism of injury, clinical features, investigations and principles of management of fracture of distal radius Lecture-6	
28-Jul-22	Thursday	OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy SDL	Clinical Postings	OR2.6.2- Mechanism of injury, clinical features, investigations and principles of management of fracture of Hand SGD- 7	PY10.17.1 Describe and discuss functional anatomy of eye, physiology of image formation, physiology of vision including colour vision, Refractive errors, colour blindness, Physiology of pupil and light reflex Ophthal- Seminar	
29-Jul-22	Friday	CM 3.1.2 OUTBREAK MANAGEMENT, QUARANTINE/ISOLATION/CONTACT TRACING SDL	Clinical Postings	EN4.8 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Squamosal type of CSOM (complications) (Lecture)	PE19.3 Vaccine description with regard to classification of vaccines, strain used, dose, route, schedule, risks, benefits and side effects, indications and contraindications. PE19.4 Define cold chain and discuss the methods of safe storage and DOAP	
30-Jul-22	Saturday	HOLIDAY				
31-Jul-22	Sunday	SUNDAY				

1-Aug-22	Monday	DR10.10 Describe the etiology, diagnostic and clinical features and management of gonococcal and non-gonococcal urethritis (Lecture)	Clinical Postings	AETCOM 3.1.2 Demonstrate ability to communicate to patients in a patient, respectful, nonthreatening, non-judgmental and empathetic manner SGD Dept. of ENT	CM 3.1.3 OUTBREAK MANAGEMENT, QUARANTINE/ISOLATION/CONTACT TRACING LECTURE	OR2.7 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability Lecture-7	
2-Aug-22	Tuesday	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases (Lecture)	Clinical Postings	SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias DOAP	EN 2.13 Identify, resuscitate and manage ENT emergencies in a simulated environment – tracheostomy EN 3.6 Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat (DOAP)		
3-Aug-22	Wednesday	IM10.3 Describe the pathophysiology and causes of pre renal ARF, renal and post renal ARF. IM10.4 Describe the evolution, natural history and treatment of ARF SGD	Clinical Postings	OP6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea Lecture	PE19.5 Discuss immunization in special situations – HIV positive children, immunodeficiency, pre-term, organ transplants, those who received blood and blood products, splenectomised children, adolescents, travellers DOAP		
4-Aug-22	Thursday	OR2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of acetabular fracture Lecture-8	Clinical Postings	OG12.5.- Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy-- LECTURE HI-MEDICINE	OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment DOAP		
5-Aug-22	Friday	RD1.8 Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to common malignancies Lecture	Clinical Postings	EN4.18 Describe the clinical features, investigations and principles of management of Facial Nerve palsy (Lecture)	FM6.1.4 – FM6.1.6 Blood grouping, DNA fingerprinting and locard's principle. SGL	CT2.14 Enumerate the indications for and interpret the results of : pulse oximetry, ABG, Chest Radiograph SDL	
6-Aug-22	Saturday	AETCOM 3.4.3 Identify, discuss and defend medico-legal, socio-cultural and ethical issues as it pertains to confidentiality in patient care ANCHORING LECTURE Dept. of Community Medicine	Clinical Postings	FM6.2 Sample collections, preservations, dispatch and interpretation and reports. SGL		--	
7-Aug-22	Sunday	SUNDAY					
8-Aug-22	Monday	DR11.1 Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections (Lecture)	Clinical Postings	CM8.1.9 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Typhoid fever & Food poisoning (Lecture)	OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy SDL-OBG	PS13.5 Demonstrate family education in a patient with psychosexual and gender identity disorders in a simulated environment SDL	
9-Aug-22	Tuesday	SU26.3 Describe the clinical features of mediastinal diseases and the principles of management (Lecture)	Clinical Postings	FM6.3 Professionalism while dealing with FSL. SDL	EN 4.50 Observe and describe the indications for and steps involved in Tracheostomy EN 4.51 Observe and describe the care of the patient with a tracheostomy.(SGD/DOAP)		

10-Aug-22	Wednesday	<p>PS13.1 Enumerate and describe the magnitude and etiology of psychosexual and gender identity disorders</p> <p>PS13.2 Enumerate, elicit, describe and document clinical features in patients psychosexual and gender identity disorders</p> <p>PS13.3 Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders</p> <p>PS13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural, psychosocial and pharmacologic therapy</p> <p>PS13.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosexual and gender identity disorders</p> <p>PS13.7 Enumerate the appropriate conditions for specialist referral (Lecture)</p>	Clinical Postings	<p>OP 6.7.1 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions. (Lecture)</p>	<p>AETCOM 3.4.2 Identify, discuss and defend medico-legal, socio-cultural and ethical issues as it pertains to confidentiality in patient care</p> <p>SDL Dept. of OBG</p>
11-Aug-22	Thursday	HOLIDAY			
12-Aug-22	Friday	<p>IM1.28 Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and acyanotic heart disease</p> <p>SGD</p>	Clinical Postings	<p>EN4.13 Describe the clinical features, investigations and principles of management of Otosclerosis(lecture)</p>	<p>PE19.9 Describe the components of safe vaccine practice – Patient education/ counselling; adverse events following immunization, safe injection practices, documentation and Medico-legal implications DOAP</p>
13-Aug-22	Saturday	<p>AETCOM 3.4.4 Identify, discuss and defend medico-legal, socio-cultural and ethical issues as it pertains to confidentiality in patient care</p> <p>DISCUSSION AND CLOSURE LECTURE</p> <p>Dept. of Pediatrics</p>	Clinical Postings	<p>IM11.16 Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions Tutorial</p>	--
14-Aug-22	Sunday	SUNDAY			
15-Aug-22	Monday	HOLIDAY			
16-Aug-22	Tuesday	<p>SU29.11 Describe clinical features, investigations and management of urethral strictures (Lecture)</p>	Clinical Postings	<p>SU28.16 Describe applied anatomy including congenital anomalies of the rectum and anal canal</p> <p>SGD</p>	<p>EN3.6 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of foreign bodies in the air passage</p> <p>EN4.49 Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat.(DOAP)</p>
17-Aug-22	Wednesday	<p>IM10.5 Describe and discuss the aetiology of CRF</p> <p>IM10.6 Stage Chronic Kidney Disease</p> <p>SGD</p>	Clinical Postings	<p>OP 6.7.2 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions. (Lecture)</p>	<p>AETCOM 3.5.1 physician - patient relationship (including fiduciary duty)</p> <p>LECTURE</p> <p>Dept. of Medicine</p> <p>PS14.4 Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment SDL</p>
18-Aug-22	Thursday	<p>SU30.2 Describe the applied anatomy clinical features, investigations and principles of management of undescended testis</p> <p>VI- Anatomy (Lecture)</p>	Clinical Postings	<p>CM.8.3.18Enumerate and describe National Mental Health Programs</p> <p>Community Medicine SDL</p>	<p>OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract DOAP</p>
19-Aug-22	Friday	HOLIDAY			
20-Aug-22	Saturday	<p>FM4.7 & FM4.12.1 Ethics related to HIV patient and Ethical issues in stem cell research. Lecture</p>	Clinical Postings	<p>OR2.10.1- Mechanism of injury, clinical features, investigations of Proximal femur fracture Lecture-9</p>	--
21-Aug-22	Sunday	SUNDAY			

22-Aug-22	Monday	DR12.1 Describe the aetiopathogenesis of eczema (Lecture)	Clinical Postings	CM8.1.10 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Dengue syndrome Lecture	PE1.2 Discuss and describe the patterns of growth in infants, children and adolescents DOAP
23-Aug-22	Tuesday	SU26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management (Lecture)	Clinical Postings	SU29.11 Describe clinical features, investigations and management of urethral strictures SGD	EN4.48 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Airway Emergencies V Anesthesiology (SGD)
24-Aug-22	Wednesday	PS14.1 Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence PS14.2 Enumerate, elicit, describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence PS14.3 Describe the treatment of stress related disorders including behavioural, psychosocial and pharmacologic therapy PS14.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence PS14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders (Lecture)	Clinical Postings	OP7.1 Describe the surgical anatomy and the metabolism of the lens VI (BIOCHEMISTRY & HUMAN ANATOMY) (Lecture)	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies. Tutorial IM3.17 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation Tutorial
25-Aug-22	Thursday	OG12.8.1- Describe the mechanism, prophylaxis, fetal complications, diagnosis of isoimmunization in pregnancy-LECTURE	Clinical Postings	OR2.10.2- Management of proximal femur fracture including joint replacement surgery (HRA/THR) and Complications of proximal femur fracture LECTURE-10	OP7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery DOAP
26-Aug-22	Friday	IM2.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG SGD	Clinical Postings	EN4.20 Describe the clinical features, investigations and principles of management of Meniere's Disease (Lecture)	PE1.3 Discuss and describe the methods of assessment of growth including use of WHO and Indian national standards. Enumerate the parameters used for assessment of physical growth in infants, children and adolescents DOAP
27-Aug-22	Saturday	DR12.3 Classify and grade eczema DR12.4 Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of eczema (Lecture)	Clinical Postings	OR2.11.1- Mechanism of injury, clinical features, investigations and principles of management of patella LECTURE-11	--
28-Aug-22	Sunday			SUNDAY	
29-Aug-22	Monday	SU30.2 Describe the applied anatomy clinical features, investigations and principles of management of undescended testis SGD	Clinical Postings	CM8.1.11 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Malaria Lect.	PE1.4 Perform Anthropometric measurements, document in growth charts and interpret DOAP
30-Aug-22	Tuesday	IM3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia SGD	Clinical Postings	CM4.1 Describe various methods of health education with their advantages and limitations Community Medicine SDL	EN4.31 Describe the clinical features, investigations and principles of management of trauma to the face & neck (SGD) (Specimen)
31-Aug-22	Wednesday	CM 3.1.4 PREPARATION OF SPOT MAP AND CALCULATING THE ATTACK RATE FROM A GIVEN DATA LECTURE	Clinical Postings	OP7.2.1 Describe and discuss the aetiopathogenesis, stages of maturation and complications of cataract VI (PATHOLOGY)-- Lecture	FM4.8 Acts- ESI, CPA, Work men's compensation. SGL CM8.1.12 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Rabies Lect.

1-Sep-22	Thursday	OG13.1.1- Enumerate and discuss the physiology of normal labor-LECTURE	Clinical Postings	DR10.6 Describe the etiology, diagnostic and clinical features of nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) SDL	OP7.5 To participate in the team for cataract surgery OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment DOAP
2-Sep-22	Friday	IM4.16 Enumerate the indications and describe the findings in tests of inflammation and specific rheumatologic tests, serologic testing for pathogens including HIV, bone marrow aspiration and biopsy Tutorial	Clinical Postings	EN4.36 Describe the clinical features, investigations and principles of management of diseases of the Salivary glands (Lecture)	PE3.1 Define, enumerate and discuss the causes of developmental delay and disability including intellectual disability in children. PE3.2 Discuss the approach to a child with developmental delay DOAP
3-Sep-22	Saturday	OR2.11.2- Mechanism of injury, clinical features, investigations and principles of management of fracture distal femur and fracture proximal tibia SDL-5	Clinical Postings	CM 3.1.5 DISCUSSION AND CLOSURE OF OUTBRAK MANAGEMENT LECTURE	--
4-Sep-22	Sunday	SUNDAY			
5-Sep-22	Monday	DR14.1 Describe the etiology, pathogenesis and clinical precipitating features and classification of Urticaria and angioedema (Lecture)	Clinical Postings	CM8.1.13 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Yellow fever & jpanese encaphelitis Lect.	FM4.9 & FM4.13 Legal issues related to NHRC Doctors & assault rape, dowry cases, etc. SGL PS15.2 Describe and discuss intelligence quotient and its measurement SDL
6-Sep-22	Tuesday	IM5.1 Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia IM5.2 Describe and discuss the aetiology and pathophysiology of liver injury Tutorial	Clinical Postings	CM3.6 Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program Community Medicine SDL	EN2.9 Choose correctly and interpret radiological, investigations relevant to the ENT disorders V- Radiology. (DOAP)
7-Sep-22	Wednesday	OG13.1.2- Enumerate and discuss the mechanism of labor in occipito-anterior presentation-- LECTURE	Clinical Postings	OP7.2.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract VI (PATHOLOGY)-- Lecture	AETCOM 3.1.3 Demonstrate ability to communicate to patients in a patient, respectful, nonthreatening, non-judgmental and empathetic manner SKILL LAB SESSION Dept. of Psychiatry
8-Sep-22	Thursday	IM5.8 Describe and discuss the pathophysiology, clinical evolution and complications cholelithiasis and cholecystitis Tutorial	Clinical Postings	OG13.1.3- Enumerate and discuss monitoring of labor including partogram. LECTURE -OBG	OP8.3 Demonstrate the correct technique of a fundus examination and describe and distinguish the fundoscopic features in a normal condition and in conditions causing an abnormal retinal exam DOAP
9-Sep-22	Friday	IM7.1 Describe the pathophysiology of autoimmune disease IM7.2 Describe the genetic basis of autoimmune disease SGD	Clinical Postings	EN4.43 Describe the clinical features, investigations and principles of management of Acute & Chronic Laryngitis (Lecture)	PE4.1 Discuss the causes and approach to a child with scholastic backwardness. PE 4.2 Discuss the etiology, clinical features, diagnosis and management of a child with Learning Disabilities. PE4.3 Discuss the etiology, clinical features, diagnosis and management of a child with Attention Deficit Hyperactivity Disorder (ADHD) DOAP
10-Sep-22	Saturday	FM4.14-FM4.15 Challenges and their management in medico-legal cases. SDL	Clinical Postings	OR2.12 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of shaft of femur in all age groups and recognition and management of fat embolism as a complication SGD-8	--
11-Sep-22	Sunday	SUNDAY			
12-Sep-22	Monday	DR10.11 Describe the etiology, diagnostic and clinical features and management of vaginal discharge (Lecture)	Clinical Postings	CM 3.2.1 PRINCIPLES OF PRIMARY HEALTH CARE LECTURE	PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism DOAP
13-Sep-22	Tuesday	IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement IM7.9 Describe the common signs and symptoms of articular and periarticular diseases Tutorial	Clinical Postings	CM3.2.1 Describe concepts of safe and wholesome water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting Community Medicine SDL	EN2.10 Identify and describe the use of common instruments used in ENT KSHYDOAP session, Bedside Skill assessment y surgery clinic (DOAP)

14-Sep-22	Wednesday	PS15.1 Describe the aetiology and magnitude of mental retardation PS15.3 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retardation PS15.4 Describe the psychosocial interventions and treatment used in mental retardation Lecture	Clinical Postings	OP8.1.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina V1- Human anatomy , Paththology- Lecture	FM 4.16-FM4.17 Bio-Ethics and Ethical Principles. Lecture	IM18.2 Classify cerebrovascular accidents and describe the aetiology, predisposing genetic and risk factors pathogenesis of hemorrhagic and non hemorrhagic stroke. Tutorial
15-Sep-22	Thursday	IM7.14 Describe the appropriate diagnostic work up based on the presumed aetiology of CTD. IM7.15 Enumerate the indications for and interpret the results of : CBC, anti-CCP, RA, ANA, DNA and other tests of autoimmunity Tutorial	Clinical Postings	OG13.1.4- discuss the conduct of labor, pain relief during labour-- SGD	PY10.20 Demonstrate testing of visual acuity, colour and field of vision in volunteer/ simulated environment Ophthal- Seminar	
16-Sep-22	Friday	CM8.1.14 Describe and discuss the epidemiological and control measuresincluding the use of essential laboratory tests at the primary care level forYellow fever,chicken gunya & Japanese encaphelitis Lect.	Clinical Postings	EN4.47 Describe the clinical features, investigations and principles of management of Stridor (Lecture)	PE4.5 Discuss the role of Child Guidance clinic in children with Developmental problems DOAP	
17-Sep-22	Saturday	FM4.22- FM4.23 Oath and declaration of Geneva. (Lecture)	Clinical Postings	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease. SGD	--	
18-Sep-22	Sunday	SUNDAY				
19-Sep-22	Monday	IM10.8 Classify, describe and discuss the significance of proteinuria in CKD IM10.9 Describe and discuss the pathophysiology of anemia and hyperparathyroidism in CKD Tutorial	Clinical Postings	CM 3.2.2 SCOPE OF INTERSECTORAL COORDINATION IN OUTBREAK CONTROL SDL	OG14.2.1-- Discuss the mechanism of normal labor--DOAP--SKILL LAB	
20-Sep-22	Tuesday	OR2.13.1- Mechanism of injury, clinical features, investigations and principles of management of fracture both bone leg Lecture-12	Clinical Postings	CM 3.2.3 ACTIVITIES OF INTERSECTORAL TEAM AND LIST THE MEMBERS FOR OUTBREAK INVESTIGATIONS LECTURE	EN4.11 Enumerate the indications describe the steps and observe a mastoidectomy (Osteology) (DOAP)	
21-Sep-22	Wednesday	IM9.2 Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anemia IM9.12 Describe, develop a diagnostic plan to determine the aetiology of anemia Tutorial	Clinical Postings	OP8.1.2 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina V1- Human anatomy , Paththology- Lecture	FM 4.25-FM 4.26 Clinical research, Human experimentation and Ethical Committees. Lecture	CM8.1.15 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Rickettsial Zoonoses Lect.
22-Sep-22	Thursday	CT2.15 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology sdl	Clinical Postings	OG13.1.5- Enumerate and discuss the principles of induction and acceleration of labor - SGD	OP9.1 Demonstrate the correct technique to examine extra ocular movements (uniocular & bimocular) DOAP	
23-Sep-22	Friday	SU30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele SGD	Clinical Postings	FM4.28- FM4.29 Ethical code of conduct (MCI) & Communication among media, public and doctors.SGL	CT1.16 Describe the appropriate precautions, screening, testing and indications for chemoprophylaxis for contacts and exposed health care workers CT2.28 Demonstrate an understanding for the difficulties faced by patients during smoking cessation SGD	

24-Sep-22	Saturday	IM10.26 Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidism Tutorial	Clinical Postings	CM 3.2.4 ROLE PLAY ON FORMING RRT	--	
25-Sep-22	Sunday	SUNDAY				
26-Sep-22	Monday	FM4.27 & FM4.30 Ethical guidelines for bio medical research. Lecture	Clinical Postings	CM 3.2.5 DISCUSSION AND CLOSURE/FEEDBACK	OG13.4.1- Demonstrate the stages of normal labor in a simulated environment -DOAP-SKILL LAB	
27-Sep-22	Tuesday	OP8.1.2 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina V1- Human anatomy , Patthology-	Clinical Postings	CM 3.3.1 INTRODUCTION TO OPERATIONAL RESEARCH LECTURE	FM14.5.1 to FM14.5.5 Postmortem Examination.(DOAP)	
AITO (TB)						
28-Sep-22	Wednesday	AN24.5 Mention the blood supply, lymphatic drainage and nerve supply of lungs Lecture	Clinical Postings	PY6.7 Describe and discuss lung function tests & their clinical significance Lecture	BI11.16 Observe use of commonly used equipments/techniques in biochemistry laboratory including: <ul style="list-style-type: none"> •pH meter •Paper chromatography of amino acid •Protein electrophoresis <ul style="list-style-type: none"> •TLC, PAGE •Electrolyte analysis by ISE <ul style="list-style-type: none"> •ABG analyzer •ELISA •Immunodiffusion <ul style="list-style-type: none"> •Autoanalyser •Quality control •DNA isolation from blood/ tissue DOAP 	
29-Sep-22	Thursday	CM8.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases Lecture	Clinical Postings	PH1.44 Describe the first line antitubercular dugs, their mechanisms of action, side effects and doses. Lecture	MI6.3 Identify the common etiologic agents of lower respiratory tract infections (Gram Stain & Acid fast stain) DOAP	
30-Sep-22	Friday	PA4.3 Define and describe chronic inflammation including causes,types non specific, granulomatous and enumerate examples of each Lecture	Clinical Postings	CM8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case NTEP Lecture	CT1.5 Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestation DOAP	
1-Oct-22	Saturday	CT1.2 Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS) Lecture	Clinical Postings	EN4.43 Describe the clinical features, investigations and principles of management of Acute & Chronic Laryngitis Lecture	--	
2-Oct-22	Sunday	SUNDAY				
3-Oct-22	Monday	OR3.1 Describe and discuss the aetiopathogenesis, clinical features, Investigations and principles of management of Bone and Joint infections (Skeletal Tuberculosis) Lecture	Clinical Postings	OP6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations Lecture	SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan DOAP	
4-Oct-22	Tuesday	HOLIDAY				
5-Oct-22	Wednesday	HOLIDAY				

6-Oct-22	Thursday	OG27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis SGD	Clinical Postings	IM25.12 Communicate to the patient and family the diagnosis and treatment of identified infection SGD	CT1.17 Define criteria for the cure of Tuberculosis; describe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimen Lecture	CT1.7 Perform and interpret a PPD (mantoux) and describe and discuss the indications and pitfalls of the test DOAP
7-Oct-22	Friday	OG13.1.6- Enumerate and discuss the management of third stage of labor-SGD	Clinical Postings	OR2.13.2- Mechanism of injury, clinical features, investigations and principles of management of fracture calcaneum, and small bones of foot SGD-9	IM10.25 Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis Tutorial	IM11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis IM11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state Tutorial
8-Oct-22	Saturday	HOLIDAY				
9-Oct-22	Sunday	SUNDAY				
10-Oct-22	Monday	SU30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis SGD	Clinical Postings	OG15.1.1- Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, SGD	OG35.14 Demonstrate the correct technique to perform and suture episiotomies in a simulated/ supervised environment-DOAP-SKILL LAB	
11-Oct-22	Tuesday	FM9.3.1-FM9.3.4 Metallic poisoning (As & Pb) Part-I lecture	Clinical Postings	EN4.45 Describe the clinical features, investigations and principles of management of Vocal cord palsy. (Lecture)	IM11.3 Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes Tutorial	IM12.3 Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function Tutorial
12-Oct-22	Wednesday	CM8.1.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Lect.	Clinical Postings	OR2.14.1- Mechanism of injury, clinical features, investigations and principles of management of ankle fractures Lecture-13	PE5.1 Describe the clinical features, diagnosis and management of thumb sucking. PE5.3 Describe the clinical features, diagnosis and management of nail biting. PE5.4 Describe the clinical features, diagnosis and management of Breath Holding spells DOAP	
13-Oct-22	Thursday	EN4.44 Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord (Lecture)	Clinical Postings	FM9.3.5 – FM9.3.6 Metallic poisoning (Cu, Fe, Cd, etc.) Part-II SGL	CM 3.3.2ROLE OF OR IN OUTBREAK MANAGEMENT	OR2.15.1- Early complications of fractures (ARDS, Fat embolism, PE/DVT, Crush syndrome) SGD-10
14-Oct-22	Friday	PS16.1 Enumerate and describe common psychiatric disorders in the elderly including dementia, depression and psychosis PS16.2 Describe the aetiology and magnitude of psychiatric illness in the elderly PS16.3 Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy PS16.5 Enumerate the appropriate conditions for specialist referral in psychiatric disorders in the elderly (Lecture)	Clinical Postings	OP8.2 LASERS IN EYE Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)-SDL	AETCOM 3.2.2 Demonstrate an understanding of the implications and the appropriate procedure and response to be followed in the event of medical errors SDL Dept. of Forensic Medicine	
15-Oct-22	Saturday	AETCOM 3.5.3 Identify and discuss physician's role and responsibility to society and the community that she/ he serves ANCHORING LECTURE Dept. of Medicine	Clinical Postings	SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders (Lecture)	--	
16-Oct-22	Sunday	SUNDAY				

17-Oct-22	Monday	CM8.1.1 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for AIDS (Lecture)	Clinical Postings	EN4.46 Describe the clinical features, investigations and principles of management of Malignancy of the Larynx and hypopharynx (Friday)	PE5.5 Describe the clinical features, diagnosis and management of temper tantrums. PE5.6 Describe the clinical features, diagnosis and management of Pica. DOAP	
18-Oct-22	Tuesday	FM9.4.1 – FM9.4.2 Ethanol poisoning. LECTURE	Clinical Postings	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease DOAP	OR2.15.2- Late complications of fractures(Myositis ossificans, RSD, AVN, VIC) SGD-11 OR2.15.3- Mal-union and non-union LECTURE-14	
19-Oct-22	Wednesday	OG16.1.1- Enumerate and discuss causes, prevention, diagnosis of postpartum haemorrhage management- SGD	Clinical Postings	OP8.5.1 Describe and discuss the correlative anatomy, aetiology, clinical manifestations, diagnostic tests, imaging and management of diseases of the optic nerve and visual pathway- Lecture	FM14.16 Drunkenness examination and reports.SGL CM8.1.16 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Leprosy SGD	
20-Oct-22	Thursday	PS16.4 Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment SDL	Clinical Postings	OG16.1.2- Enumerate and discuss the management, appropriate use of blood and blood products in postpartum haemorrhage- SGD	OP6.9 Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions- SDL SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles SGD	
21-Oct-22	Friday	SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele SGD	Clinical Postings	FM9.4.3 –FM9.4.6 Methanol & Ethyl glycerol poisoning. SGL	CM 3.3.3 IDSP LECTURE	
22-Oct-22	Saturday	IM16.15 Distinguish based on the clinical presentation Crohn's disease from Ulcerative Colitis Tutorial	Clinical Postings	SU27.4 Describe the types of gangrene and principles of amputation SGD	--	
23-Oct-22	Sunday	SUNDAY				
24-Oct-22	Monday	HOLIDAY				
25-Oct-22	Tuesday	HOLIDAY				
26-Oct-22	Wednesday	CM8.1.17 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Cardiovascular Diseases & Coronary heart Diseases Lect.	Clinical Postings	AETCOM 3.5.4 Identify and discuss physician's role and responsibility to society and the community that she/ he serves CLOSURE AND DISCUSSION LECTURE Dept. of Community Medicine	FM9.5.1 –FM9.5.2 Agricultural poisoning (Organophosphorus).Part-I SGL SU18.2 Classify skin tumors Differentiate different skin tumors and discuss their management SGD	
27-Oct-22	Thursday	IM17.7 Enumerate the indications and describe the findings in the CSF in patients with meningitis IM17.9 Interpret the CSF findings when presented with various parameters of CSF fluid analysis SDL	Clinical Postings	SU15.1 Describe classification of hospital waste and appropriate methods of disposal. SDL	CM6.2 Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data DOAP	
28-Oct-22	Friday	OG17.1 Describe and discuss the physiology of lactation LECTURE	Clinical Postings	OP9.2.1 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus- Lecture	OG17.2 Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding- DOAP-SKILL LAB	
29-Oct-22	Saturday	OR11.1.1- Classification and investigation of nerve injury SGD-13	Clinical Postings	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins (Lecture)	--	
30-Oct-22	Sunday	Sunday				
31-Oct-22	Monday	CM8.1.23 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Hypertension & stroke (Lecture)	Clinical Postings	OG17.3.1 Describe and discuss the clinical features, and diagnosis of mastitis and breast abscess-- LECTURE	OR2.15.4- Compartment syndrome LECTURE- 15 OR2.16.1- Mechanism of injury, clinical features, investigations and principles of management of open fractures SGD- 12	

1-Nov-22	Tuesday	FM9.5.3- FM9.5.6 Agricultural poisoning (Alp, Znp, etc.)Part-II Lecture	Clinical Postings	IM12.1 Describe the epidemiology and pathogenesis of hypothyroidism and hyperthyroidism influence of iodine deficiency and autoimmunity in the pathogenesis of thyroid disease. IM 12.13 Describe the pharmacology, indications, adverse reaction,interactions of thyroxine and antithyroid drugs Tutorial	PE5.7 Describe the clinical features, diagnosis and management of Fussy infant. PE5.9 Discuss the etiology, clinical features and management of Encopresis PE5.8 Discuss the etiology, clinical features and management of Enuresis DOAP	
2-Nov-22	Wednesday	IM13.1 Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India. Tutorial	Clinical Postings	OP9.2.2 Classify, enumerate the types, methods of diagnosis and indications for referral in a patient with heterotropia/ strabismus- Lecture	FM9.6.1 to FM9.6.8 Poison (CO, NH3, Tear gas, etc.) SGL FM10.1.1 to FM10.1.6 Antipyretic and Barbiturates. SGL	
3-Nov-22	Thursday	CM8.1.18 Describe and discuss the epidemiological and control measuresincluding the use of essential laboratory tests at the primary care level for Diabetes Lect.	Clinical Postings	OP7.4.1 Enumerate the types of cataract surgery and describe the steps,intra-operative and post-operative complications of extracapsular cataract extraction surgery. SDL	OR11.1.2- Principal of nerve repair SGD-14 OR11.1.3- Radial nerve injury and wrist drop SGD-15	
4-Nov-22	Friday	OG17.3.2- Describe and discuss management of mastitis and breast abscess-LECTURE	Clinical Postings	PE1.4 Perform Anthropometric measurements, document in growth charts and interpret((PED SGL)	AETCOM 3.1 Demonstrate ability to communicate to patients in a patient, respectful, nonthreatening, non-judgmental and empathetic manner FOCUSED SGL Dept. of Anesthesiology	
5-Nov-22	Saturday	IM15.10 Enumerate the indications for endoscopy, colonoscopy and other imaging procedures in the investigation of Upper GI bleeding SDL	Clinical Postings	FM10.1.7 to FM10.1.8 Muscle relaxants,Anesthetic, Narcoanalgesic. SGL	--	
6-Nov-22	Sunday	SUNDAY				
AITO (Thyroid)						
7-Nov-22	Monday	AN35.2 Describe & demonstrate location, parts, borders, surfaces, relations & blood supply of thyroid gland Lecture	Clinical Postings	PY8.2 & 8.4Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of , thyroid gland, parathyroid gland, Lecture	IM 12.7 Demonstrate the correct technique to palpate the thyroid DOAP BI11.17 Explain the basis and rationale of biochemical tests done in the following conditions: thyroid disorders Lecture	
8-Nov-22	Tuesday	HOLIDAY				
9-Nov-22	Wednesday	PA32.1 Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings Lecture	Clinical Postings	PH1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (thyroid disorders)	SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management M12.9 Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan	
10-Nov-22	Thursday	OG28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques Lecture	Clinical Postings	CM5.3 Define and describe common nutrition related health disorders (iodine) their control and managemen Lecture	M12.13 Describe the pharmacology, indications, adverse reaction, interactions of thyroxine and antithyroid drugs Lecture OP2.6 Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis Lecture	
11-Nov-22	Friday	EN3.5 Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat (in relevance to Thyroid SGD	Clinical Postings	PA32.3 Describe the etiology, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis/ hypothyroidism Lecture	M12.11 Interpret thyroid function tests in hypo and hyperthyroidism Lecture SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer Lecture	

12-Nov-22	Saturday	CM8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case Lecture	Clinical Postings	IM12.14 Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status SGD	--	
13-Nov-22	Sunday	SUNDAY				
14-Nov-22	Monday	EN 4.6 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Discharging ear SDL	Clinical Postings	CM8.1.19 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Obesity (Lecture)	PE6.1 Define Adolescence and stages of adolescence. PE6.2 Describe the physical, physiological and psychological changes DURING adolescence (Puberty). PE6.6 Discuss the common Adolescent eating disorders (AnorexiaNervosa,Bulimia. PE6.7 Describe the common mental health problems duringadolescence	
15-Nov-22	Tuesday	FM10.1.9 to FM10.1.12 Cardiac Poison. (Lecture)	Clinical Postings	IM4.7 Discuss and describe the pathophysiology and manifestations of the sepsis syndrome Tutorial	OR11.1.4- Ulnar nerve injury and claw hand SGD-16	OR11.1.5- Median nerve injury SGD-17
16-Nov-22	Wednesday	PS17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide, Deliberate Self Harm, Violent behaviour) PS17.2 Describe the initial stabilisation and management of psychiatric emergencies PS17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies Lecture	Clinical Postings	OP9.3 Describe the role of refractive error correction in a patient with headache and enumerate the indications for referral VI-(GENERAL MEDICINE)-- Lecture	CM8.1.20 Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Rheumatic Heart Disease, Cancer,Accidents &Injuries & Blindness SGD	
17-Nov-22	Thursday	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan SGD	Clinical Postings	FM11.1.1 to FM11.1.10 Animal Poison(Snake, Scorpion, etc.). SGL	OR11.1.6- Lateral popliteal injury and foot drop, sciatic nerve injury SGD-18	OR11.1.7- Brachial plexus injury SGD-19
18-Nov-22	Friday	OG19.1.1- Describe and discuss the physiology of puerperium, and its and management- SGD	Clinical Postings	PE2 6 Enumerate the referral criteria for growth related problems. PED SGL	FM14.2 & FM14.3 Poisoning- Clinical Examination, report preparation and sample preservation.(DOAP)	
19-Nov-22	Saturday	FORMATIVE ASSESSMENT Community Medicine	Clinical Postings	SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas SGD	--	
20-Nov-22	Sunday	SUNDAY				
21-Nov-22	Monday	IM9.11 Describe the indications and interpret the results of a bone marrow aspirations and biopsy Tutorial	Clinical Postings	CM 3.3.4 FIELD ACTIVITIES AND HOW DATA IS COLLECTED COMPLIED, ANALYSED, REPORTED. LECTURE	CT2.19 Develop a management plan for acute exacerbations including bronchodilators, systemic steroids, antimicrobial therapy SGD	
22-Nov-22	Tuesday	FM14.9 Medico-legal examination of skeletal remains. SGL	Clinical Postings	SU24.1 Describe the clinical features, principles of investigation, prognosis and management of pancreatitis SDL	CM7.1 Define Epidemiology and describe and enumerate the principles, concepts and uses DOAP	
23-Nov-22	Wednesday	OG19.1.2- Describe and discuss , complications of puerperium and its diagnosis. SGD	Clinical Postings	OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)- HI- Community medicine-- Lecture	IM14.2 Describe and discuss the aetiology of obesity including modifiable and non-modifiable risk factors and secondary causes IM14.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity Tutorial	IM15.1 Enumerate, describe and discuss the aetiology of upper and lower GI bleeding. IM15.6 Distinguish between upper and lower gastrointestinal bleeding based on the clinical features Tutorial

24-Nov-22	Thursday	EN 2.13 Identify, resuscitate and manage ENT emergencies in a simulated environment – tracheostomy ENT SDL	Clinical Postings	PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and evaluation (PED SGL)	CM2.1 Describe the steps and perform clinico socio-cultural and demographic assessment of the individual, family and community DOAP	
25-Nov-22	Friday	PE20.13 Discuss the temperature regulation in neonates, clinical features and management of Neonatal hypoglycemia(PED SGL)	Clinical Postings	FM14.18.1 to FM 14.18.3- Judicial/ custodial examination and reporting according to NHRC guidelines.SGL	CM1.9 Demonstrate the role of effective Communication skills in health in a simulated environment DOAP	
26-Nov-22	Saturday	IM1.3 Describe and discuss the aetiology microbiology pathogenies and clinical evolution of rheumatic fever, criteria, degree of rheumatic activity and rheumatic valvular heart disease and its complications including infective endocarditis SDL	Clinical Postings	SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias (Lecture)	OG19.4 Enumerate the indications for, describe the steps in insert and remove an intrauterine device-DOAP -SKILL LAB	
27-Nov-22	Sunday	SUNDAY				
28-Nov-22	Monday	SU1.3 Describe basic concepts of perioperative care. SGD	Revision Clinical Postings	CM7.5 Enumerate, define, describe and discuss epidemiological study designs Lecture	OG21.2 Describe & discuss PPIUCD programme SGD	PS19.5 Describe the concept and principles of preventive psychiatry and mental health promotion (positive mental health); and community education SDL
29-Nov-22	Tuesday	EN4.30Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Epistaxis ENT- SDL	CM 3.3.5 VISIT TO PHC/SUBCENTRE	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose vein SDL	FM14.17.1 to FM14.17.2 Poisons-identify and medico-legal inference (Dhatura, Aconite, Calotropis, etc.) (DOAP)	
30-Nov-22	Wednesday	PS18.1 Enumerate the indications and describe the pharmacology, dose and side effects of commonly use drugs in psychiatric disorders PS18.2 Enumerate the indications for modified electroconvulsive therapy PS18.3 Enumerate and describe the principles and role of psychosocial interventions in psychiatric illness including psychotherapy,behavioural therapy and rehabilitation (Lecture)	Revision Clinical Postings	OP9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury-- Lecture	CM7.6 Enumerate and evaluate the need, type & uses of screening tests DOAP	
1-Dec-22	Thursday	OP7.2.1 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of catarac SDL	Revision Clinical Postings	OG21.1.1- Describe and discuss the temporary and permanent methods of contraception- SGD	OP1.3.5 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes DOAP	
2-Dec-22	Friday	IM20.8 Describe the diagnosis, initial approach stabilisation and therapy of scorpion envenomation SDL	Revision Clinical Postings	PE19.15 Explain the term implied consent in Immunization services (PED SGL)	CM6.4 Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion DOAP	
3-Dec-22	Saturday	SU28.5 Describe the applied Anatomy and physiology of esophagus SU28.6 Describe the clinical features, investigations and principles ofmanagement of benign and malignant disorders of esophagus VI- Anatomy & Physiology SGD	Revision Clinical Postings	OP6.7.1 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions. SDL	AETCOM 3.5.2 physician - patient relationship (including fiduciary duty) SDL Dept. of Forensic Medicine	
4-Dec-22	Sunday	SUNDAY				
5-Dec-22	Monday	OG21.1.3-Describe and discuss the - indications, technique and complications; selection of patients, side effects and failure rate of emergency contraception - SGD	Revision Clinical Postings	CM7.7 Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures DOAP	SU27.5 Describe the applied anatomy of venous system of lower limb SGD	

6-Dec-22	Tuesday	PS19.1 Describe the relevance, role and status of community psychiatry PS19.2 Describe the objectives strategies and contents of the National Mental Health Act PS19.3 Describe and discuss the basic legal and ethical issues in psychiatry PS19.4 Enumerate and describe the salient features of the prevalent mental health laws in India PS19.6 Enumerate and describe the identifying features and the principles of participatory management of mental illness occurring during and after disasters (Lecture)	Revision Clinical Postings	SU30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele SDL	CM2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior DOAP
7-Dec-22	Wednesday	IM16.1 Describe and discuss the aetiology of acute and chronic diarrhea including infectious and non infectious causes. IM16.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for parasitic causes of diarrhea IM16.14 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for bacterial and viral diarrhea Tutorial	Revision Clinical Postings	OP 9.5 OCULAR INJURIES Lecture	CM14.1, CM14.2, CM14.3 Define and classify hospital waste, Describe various methods of treatment of hospital waste, Describe laws related to hospital waste management DOAP
8-Dec-22	Thursday	OG21.1.2 Describe and discuss the indications, technique and complications; selection of patients, side effects and failure rate including OCP-SGD	Revision Clinical Postings	SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele SDL	FM14.19.1 to FM14.19.2 Histo pathological examination of slides (MI, Diatoms, Infract, etc.) .(DOAP)
9-Dec-22	Friday	EN4.39 Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Tonsillitis SDL	Revision Clinical Postings	SU28.16 Describe applied anatomy including congenital anomalies of the rectum and anal canal SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases VI- Anatomy (Lecture)	OG19.2 Counsel in a simulated environment, contraception and puerperal sterilisation- DOAP
10-Dec-22	Saturday	OG21.1.4-Describe and discuss the indications, technique and complications; selection of patients, side effects and failure rate of IUCD-SGD	Revision Clinical Postings	IM22.1 Enumerate the causes of hypercalcemia and distinguish the features of PTH vs non PTH mediated hypercalcemia. IM22.3 Describe the approach to the management of hypercalcemia SDL	CM6.3 Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs DOAP
11-Dec-22	Sunday	SUNDAY			
12-Dec-22	Monday	OG21.1.5-Describe and discuss the indications, technique and complications; selection of patients, side effects and failure rate of male contraception-SGD	Revision Clinical Postings	CM15.1 Define and describe the concept of mental Health, CM15.3 Describe National Mental Health program Lecture	FM14.4.1 to FM14.4.5 & FM14.13 Age estimation and estimate age of fetus. (DOAP)
13-Dec-22	Tuesday	SU16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery SGD	Revision Clinical Postings	CM13.3 Describe man made disasters in the world and in India Lecture	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins SGD

14-Dec-22	Wednesday	EN4.23 Describe the clinical features, investigations and principles of management of DNS SDL	Revision Clinical Postings			SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated environment DOAP	CM13.2 Describe disaster management cycle, , CM13.4. National Disaster management Authority DOAP
